The article entitled “Modeling the effects of biomass accumulation on the performance of a biotrickling filter packed with PUF support for the alkaline biotreatment of dimethyl disulfide vapors in air”.

Appl Microbiol Biotechnol (2015) 99:97–107. DOI 10.1007/s00253-014-5929-7.

In the mathematical model section, page 100, equation number 7, should be

$$\frac{\partial C_B}{\partial t} = D_{\text{eff}} \frac{\partial^2 C_B}{\partial x^2} - R_B$$

Published version of the article contains a typographical error in equation 7 where the term δ^{-2} was included by mistake. In any case this error was not present in the mathematical simulation.
