Correction to: European Journal of Nuclear Medicine and Molecular Imaging
<https://doi.org/10.1007/s00259-018-3994-3>

On page 10 of the original version of this article, the sentence “We also performed PET/MRI-10 based surgical resections in an increasing number of MRI negative/doubtful cases with 11 favourable outcome.” has added numbers which are unnecessary.

Correct line should be: We also performed PET/MRI based surgical resections in an increasing number of MRI negative/doubtful cases with favourable outcome.

The original article has been corrected.

The online version of the original article can be found at <https://doi.org/10.1007/s00259-018-3994-3>
