

ACKNOWLEDGEMENT TO REFEREES

© Springer International Publishing Switzerland 2015

Dear Reader,

As we approach the end of 2015, and publish our final issue of *Clinical Drug Investigation* for the year, the editors and production staff at Adis wish to reflect on another successful year's achievements and pay thanks to all those who have contributed their time and effort to guarantee the exceptional quality of our content.

We are delighted to have seen the conclusion of formalities surrounding the joint venture of *Springer Science + Business Media* with *Nature Publishing Group, Palgrave Macmillan, Macmillan Education* in early May. Substantial ground has already been made in the integration of business within the resulting *Springer Nature* company and we at Adis look eagerly toward the future, as the benefits of the collective expertise and capabilities of this company carry us forward.

The majority of our journals saw a rise in ISI impact factor against the previous year. Most notably, *BioDrugs* increased by 41 % to 2.989; the *European Journal of Drug Metabolism and Pharmacokinetics* increased 19 % to 1.563; *CNS Drugs* increased by 17 % to 5.113; *Targeted Oncology* increased 16 % to 4.000; *Pediatric Drugs* increased 15 % to 1.975; *Drugs & Aging* increased 13 % to 2.838; and *Molecular Diagnosis & Therapy* increased a further 12 % to 2.891, having already jumped 53 % in the preceding year. We hope to build upon these gains, once more, in 2016.

The Adis Book programme has grown substantially and 20 new titles will have been published over the course of the year. Over 50 further titles are currently in development with leading academics, internationally, and we continue to add more to the list. Our thanks, again, to all who have submitted these valuable proposals to date.

We offer our sincere thanks to all authors who have contributed articles to *Clinical Drug Investigation* over the course of 2015. Their skill and dedication are critical to the continued publication of the journal. The world-class quality of published articles is, similarly, testament to the significant efforts of the peer reviewers, whose commitment ensures that our content is held to the highest possible standard. In addition to the members of our Honorary Editorial Board, we would like to thank the following individuals who acted as reviewers for articles published in *Clinical Drug Investigation* in 2015:

Chadi Abbara, France  
Takeshi Aiba, Japan  
Dominick J. Angiolillo, USA  
Alejandro Arana, Spain  
Ozer Arican, Turkey  
Isabelle Arnet, Switzerland  
David Arroyo, Spain  
Christian Asseburg, Sweden  
Bengt Astrand, Sweden  
Kostas Athanasakis, Greece  
Kristopher Attwood, USA

We hope that you have found the articles published throughout 2015 to be both interesting and informative. The editors have appreciated the high quality of content contributed to the journal this year and look forward to keeping you up to date with topical issues in drug treatment in 2016.

With best wishes from the staff of *Clinical Drug Investigation* and all at Adis Publications.
