**Erratum to: PharmacoEconomics (2014) 32:735–743**  
**DOI 10.1007/s40273-014-0156-8**

Page 740, Table 1, 5th row, 2nd column text should read

Favourable in those patients with a high proportion of costly and large disutility events and in those with a large risk of death or confinement to a nursing home.

Unfavourable in the remaining patients

Page 740, Table 1, 6th row, 2nd column text should read

Favourable to those interventions which are relatively more cost effective, unfavourable to those interventions which are relatively less cost effective
