

## Erratum to: Prognostic Factors in Uterine Cancer

Patricia M. Baker and Esther Oliva

**Erratum to:**  
**Chapter “Prognostic Factors in Uterine Cancer” in:**  
**P. M. Baker, E. Oliva, Current Clinical Oncology,**  
**DOI 10.1007/7631\_2015\_4**

All the bracketed citation numbers have been corrected throughout the chapter.  
All instances of grade numbers presented in roman numerals were changed to arabic numerals.

Page 2

Section ‘**FIGO Stage**’, 1<sup>st</sup> paragraph:

Lines 35-36: ‘lymph nodes’ was inserted after ‘para-aortic’

Line 37: ‘CIII-1’ was revised to ‘IIC-1’.

Line 38: ‘CIII-2’ was revised to ‘IIC-2’.

Line 63: ‘the e’ was revised to ‘there’.

Page 3: Table 2 was replaced with a revised table.

Page 5

2<sup>nd</sup> paragraph, 9<sup>th</sup> line: ‘5 years’ has been revised to ‘7 years’.

Page 6

Section ‘**Histologic Grade**’, 1<sup>st</sup> paragraph:

Line 18: ‘EC’ was revise to ‘EEC’.

Page 10, 2<sup>nd</sup> paragraph,

6<sup>th</sup> line: ‘clear cell carcinomas’ was replaced with ‘CCC’.

12<sup>th</sup> line: ‘in about 25% of clear cell carcinomas’ was replace with ‘in about 25% of these tumors’.

Page 11, 1<sup>st</sup> paragraph

6<sup>th</sup> line: 'stage I clear cell carcinoma' was replaced with 'stage I tumors'.

12<sup>th</sup> line: 'CCC' was inserted after 'stage I'.

Section '**Myometrial Invasion**', 1<sup>st</sup> paragraph, line 49: 'adenomyotic foci, rather than true myometrial invasion, is not recognized.' has been replaced with 'adenomyotic foci is not recognized.'

59<sup>th</sup> line: 'Residual benign endometrial glands' was replaced with 'The finding of residual benign endometrial glands'.

## Page 13

27<sup>th</sup> line: 'IIA tumors is similar to stage I tumors,' was replaced with 'IIA tumors is similar to those with stage I tumors,'.

Section '**Age**', 1<sup>st</sup> paragraph,

4<sup>th</sup> line: 'women with endometrial carcinoma' was replaced with 'women with EC.'

Lines 17-19: 'and may associated with higher stage and possibly poorer prognosis' was replaced with 'and higher stage and possibly poorer prognosis'.

## Page 14

Section '**Lymphovascular Invasion**', 2<sup>nd</sup> paragraph, 9<sup>th</sup> line: 'lymph node metastasis' was replaced with 'lymph node metastases'

## Page 15:

'(stage IIIA)' was deleted from caption for figure 11.

3rd paragraph, lines 23-24: 'ovarian involvement, small ovaries, a multinodular pattern of growth,' was replaced with 'ovarian involvement, small ovaries, multinodular growth,'

## Page 16

1<sup>st</sup> paragraph, 1<sup>st</sup> line: 'in the EEC [188, 190]' was inserted after 'and poorly differentiated histology'.

Section '**Stage IIIC**', 1<sup>st</sup> paragraph, line 49: 'moderate risk of lymph node metastasis [34].' was replaced with 'moderate risk of lymph node metastases [29].'

## Page 18

Section '**DNA Ploidy**', 2<sup>nd</sup> paragraph:

Line 13: 'patients with favorable endometrioid tumors' was replaced with 'patients with endometrioid tumors'.

Lines 17-18: 'Several investigators have found DNA ploidy and to be independent' was replaced with 'Several investigators have found DNA ploidy to be an independent'.

## Page 19

Section title 'c-erb-B2 (HER-2/neu)' was revised to 'C-Erb-B2 (Her-2/Neu)'

Page 20: Figure 14 was moved to page 21. 'in EEC' was added to end of caption (a). The words 'depression of' was deleted from caption (b).

## Page 21

Section '**Pten**', lines 1-2: 'PTEN (phosphatase and tensin homologue detected from chromosome 10)' was revised to 'PTEN (phosphatase and tensin homologue) located on chromosome 10q'.

## Page 22

Figure 14 was moved to page 21.

2<sup>nd</sup> paragraph, lines 23-25: ‘overlapping features, both histologic and immunohistochemical that overlap with endocervical adenocarcinomas [298].’ was revised to ‘overlapping histological and immunohistochemical features with endocervical adenocarcinomas [291].’

## Page 24

Section ‘**Low-Grade Endometrial Stromal**’ was renamed to ‘**Endometrial Stromal Sarcoma**’.

Section ‘**Undifferentiated Endometrial Sarcoma**’: The 2<sup>nd</sup> sentence ‘Note that most of the high-grade endometrial stromal sarcomas referred to in the literature have been diagnosed largely by mitotic activity, a feature that is now known not to be significant.’ has been deleted.

Section ‘**Malignant Mixed Müllerian Tumor (Carcinosarcoma)**’, 2<sup>nd</sup> paragraph, lines 25-27: ‘although some recent studies suggest that malignant mixed müllerian tumors exhibit decreased ER and PR [217].’ has been deleted.

## Page 25

Section ‘**Conclusions**’:

2<sup>nd</sup> bulleted item: ‘has eliminated stage IIA as well positive peritoneal cytology from stage IIIA’ was revised to ‘has eliminated stage IIA as well as positive peritoneal cytology from stage IIIA’.

4<sup>th</sup> bulleted item: ‘most important factors in tumor stage.’ has been revised to ‘most important factors in stage I tumors’.

## Page 26

11<sup>th</sup> bulleted item: ‘are associated with poor prognosis even when stage I.’ was revised to ‘are associated with poor prognosis even when low stage.’

Pages 26-40: The list of references was renumbered.
