

## **ADDENDUM**

This Journal recently published an editorial by Kreiner and Rosenwaks (*J Vitro Fert Embryo Transfer*. 1988;5:313-315). The authors referred in this editorial to some of their "past experiences." Since only the present addresses were listed, the impression could be given that their past experiences solely refer to work performed at their present institutes. This thereby stands corrected at

the requests of the authors since a large part of the experience had been accumulated at their previous location of practice, The Jones Institute for Reproductive Medicine in Norfolk, Virginia.
