Unfortunately, Figs. 1, 3, and 4 were printed incorrectly, due to a publisher's error. The correct versions are shown below:

**Fig. 1.** The growth dynamics associated with the TASEP directed last passage percolation

**Fig. 3.** Integration path used for the asymptotics for fixed  $y$

**Fig. 4.** Integration path used for the asymptotics for large value of  $y$ .  $\gamma_2$  is the dashed line
