Correction to: Catalysis Letters (2017) 147:704–715
<https://doi.org/10.1007/s10562-016-1958-4>

The authors regret that a certain error in their manuscript was not found in time during manuscript proof, which might puzzle readers. The corrected section now appears here.

In Section 2.4 Products Selectivity, page 710 line 1 (exclude figures and tables), the equation $\sum_i S_1^i \equiv 100\%$ should be

$$\sum_i S_1^i \neq 100\%$$

since “The sum of selectivity of all collected products by S_1 (S_1^i) might not be 100% due to accumulated or lost products or extra ones.” (page 709, the last sentence).

The original article can be found online at <https://doi.org/10.1007/s10562-016-1958-4>.
