Correction to: Ecotoxicology (2019) 28:251–260
<https://doi.org/10.1007/s10646-018-02014-w>

The original version of the article was published with a wording error.

The corrections are: In the 2nd sentence of the Statistical Analyses section, the current sentence lacks important statistical assumption wording.

The sentence in the Online First PDF reads: “All data were tested for normality and appropriate test were used where assumptions were not met.”

It should read (as in the earlier original version):

“All data were tested for homoscedasticity and normality, and data were transformed when assumptions were not met.”

The original article can be found online at <https://doi.org/10.1007/s10646-018-02014-w>.
