

CYPRUS

Agricultural Research Institute
PO Box 2016, Nicosia
Tel: 021 403 431
Investigating the production of methane gas
by anaerobic digestion of animal wastes.

DENMARK

Aalborg University Centre
Dk-9100 Aalborg
Tel: 08 142333 Tlx: 6970
Investigating anaerobic digestion of paunch
manure from slaughterhouses using small scale
continuous flow and batch reactors at both
mesophilic and thermophilic temperatures.

Abetong Sabema
Ny Ostergade 20, DK-1101 Kobenhaven
Tel: 01 15 35 03
Construct thermophilic plant for production
of methane by anaerobic digestion.

Agri Contact
Torupvej 97, DK-3390 Hundested
Tel: 02 32 33 06 Tlx: 16600
Act as consultants to the agricultural,
food and bio industries.

Agro-Metan
Brogade 1, Seppersund, DK-9240 Nibe
Constructors of completely mixed anaerobic
digesters for use with dairy cattle manure.

Akvdan-Harvey AS
Krogshøjvej 29, DK-2880 Bagsvaerd
Tel: 02 98 7200 Tlx: 37470
Undertake engineering construction,
design, planning, etc of water works and
sewage-treatment plant, including both
biological and mechanical systems.
Specialize in biochemical treatment of all
types, including oxidation ditches and a
patent method for biological removal of
nitrogenous compounds.

Ambia-Therm International
Aabyvej 53, DK-8230 Aabyhoj
Tel: 615 1387
Manufacture insulating materials.

Aminodan Group
DK-9990 Skagen
Tel: 44 31 05 Tlx: 67547
Supply complete turn-key systems for water
treatment based on the activated sludge
process, primarily for the food industries,
including meat, fish, oil, fat, dairy and
poultry-processing wastes. Also applicable to

paper and pulp effluents, tanning, industrial
wastes and municipal sewage treatment.

Askov Research Station
Askov Forsogsstation, DK-6600 Vejen
Investigating potential fertilizer value of
both undigested and digested sludge from farm
wastes and manures.

**Association of Manufacturers of
Agricultural Equipment**
Danske Landbrugsmaskinfabrikanten Foreningen
AF, Hojkolvej 24, DK-8210 Aarhus V
Tel: 6 15 6822 Tlx: 64141
Promote the interests of the agricultural
machinery industry and supply information on
equipment for biomass production and handling.

Atlas AS
Baltorpvej 154, DK-2750 Ballerup
Tel: 297 4864 Tlx: 35177
Design and supply rotary universal drum
driers for drying green crops, and wood waste
and peat for the production of solid fuel.
Also manufacture equipment for control of
wastes from agricultural and food industries
eg poultry manure, effluents from fish
processing plants and slaughterhouses etc, as
well as for treatment of wastewaters.

Bigadan AS
Industrivej 9, DK-5580 Norre Aaby
Tel: 942 1050
Produce biogas units which can be supplied
with remote control.

Biosystem AB
Ny Ostergade 20, DK-1101 Kobenhavn
Construct anaerobic digesters for
production of methane. Part of Biosystem AB
(Sweden).

Brande Beholder & Kedelfab
Svindbak, DK-7323 Give
Tel: 573 4122
Produce straw-fired and other solid fuel
boilers for wood, coal etc.
