

U V

Ubretid. Anticholinesterase: *see* DISTIGMINE.

Ukidan. Fibrinolytic injection: *see* UROKINASE.

Ultrabase. Bland, protective cream recommended for use when topical steroids are withdrawn: *see* LIQUID PARAFFIN, SOFT PARAFFIN, STEARYL ALCOHOL.

Ultradil. Topical corticosteroid for eczema: *see* FLUOCORTOLONE.

Ultralanum. Topical corticosteroid/anti-infective: *see* CLEMIZOLE, FLUOCORTOLONE.

Ultraproct. Local treatment for haemorrhoids: *see* CINCHOCAINE, FLUOCORTOLONE.

Ultratard. Long-acting purified beef insulin (zinc suspension): *see* INSULIN.

Unguentum. Protective cream for use on skin. May be used as vehicle for drugs.

Uniflu. For symptomatic treatment of common cold: *see* CAFFEINE, CODEINE, DIPHENHYDRAMINE, PARACETAMOL, PHENYLEPHRINE, VITAMIN C.

Unigest. Antacid: *see* ALUMINIUM HYDROXIDE, DIMETHICONE.

Unihep. Anticoagulant: *see* HEPARIN.

Unimycin (d). Antibiotic: *see* OXYTETRACYCLINE.

Uniparin. Anticoagulant for subcutaneous injection: *see* HEPARIN.

Uniphylin. Sustained-release bronchodilator: *see* THEOPHYLLINE.

Uniroid. Local treatment for haemorrhoids: *see* CINCHOCAINE, HYDROCORTISONE, NEOMYCIN, POLYMIX B.

Unisept. Topical disinfectant: *see* CHLORHEXIDINE.

Unisomnia. Hypnotic: *see* NITRAZEPAM.

Univer. Antianginal/antihypertensive: *see* VERAPAMIL.

Uriben. Antibiotic: *see* NALIDIXIC ACID.

Urisal. Alkalinizing agent used in cystitis: *see* SODIUM CITRATE.

Urispas. Anticholinergic antispasmodic for urinary tract colic: *see* FLAVOXATE.

Uromide (d). Antibacterial/analgesic for painful urinary tract infections: *see* PHENAZOPYRIDINE, SULPHACARBAMIDE.

Uromitexan. Used to prevent bladder toxicity resulting from cyclophosphamide treatment: *see* CYCLOPHOSPHAMIDE, MESNA.

Uro-Tainer. Sterile solution for maintenance of urinary catheters: *see* CHLORHEXIDINE, MAGNESIUM CITRATE, MANDELIC ACID, SODIUM CHLORIDE.

Ursofalk. Bile acid for dissolution of cholesterol gall stones: *see* URSODEOXYCHOLIC ACID.
