Retraction Note to:

Chapter 8

Characteristics Analysis of the Motor Block Lattice Resistor of a High Speed Train by Structure Improvement

DOI: 10.1007/978-3-642-26010-0_8

The chapter starting on page 65 of this publication has been retracted due to multiple publication

Retraction Note to:

Chapter 38

Characteristics Analysis of the Motor Block Lattice Resistor of a High Speed Train by Structure Improvement

DOI: 10.1007/978-3-642-26010-0_38

The chapter starting on page 302 of this publication has been retracted due to multiple publication.

Retraction Note to:

Chapter 39

**Estimation of Deterioration Degree in Overhead Transmission
Lines by Tension Load Analysis**

DOI: 10.1007/978-3-642-26010-0_39

The chapter starting on page 312 of this publication has been retracted as it is a duplicate of the paper starting on page 86

Retraction Note to:

Chapter 40

**Structure Vibration Analysis and Active Noise Control of a Power
Transformer by Mobility Measurement**

DOI: 10.1007/978-3-642-26010-0_40

The chapter starting on page 322 of this volume has been retracted due to multiple publication.
