

**BOOK ANNOUNCEMENT: FUNGICIDE AND NEMATICIDE TESTS, RESULTS OF 1972.**

This report is issued annually by The American Phytopathological Society Committee on New Fungicide and Nematicide Data. Volume 28 contains the results of 348 experiments from 34 states of the United States, Australia, Canada, Chile, Ecuador, Greece, India, Israel, Libya, Mexico, New Zealand and the United Kingdom. It also includes an index of all fungicides and nematocides reported, a description of the materials available for testing in 1973.

This book is available for \$3.00 per copy when payment accompanies the order, or \$2.50 per copy for 100 or more copies mailed to one address. Reports for 1970 and 1971 are available at \$3.00 per copy. Copies of the reports for 1960 through 1965 plus a few older copies are available at \$1.00 per copy plus the usual charge of 25¢ per copy if billing is required. Make remittances to the American Phytopathological Society and send orders to K. D. Hickey, Virginia Polytechnic Institute and State University, Fruit Research Laboratory, 2500 Valley Avenue, Winchester, Virginia 22601.

# NO ALL-DAY SUCKERS

®DI-SYSTON systemic insecticide knocks out early-season suckers—aphids, leafhoppers—plus many other potato insects. Granular or liquid formulations. Full details from your dealer.
