## Call for Nominations

Nominations from Active members are requested for various administrative roles in the management of the EAPD, elected members will take office at the EAPD Congress in Harrogate on June 2nd, 2010. The constitution of the EAPD determines that each elected member shall serve for no more than six years in any one position. Below are the names of the present members of the EAPD board and the year of first appointment.

## Executive Board

- President: **Nick Lygidakis** (2006) automatically becomes past-President
- President-elect: **Norbert Kraemer** (2008) automatically becomes President
- President-elect: nominations required
- Secretary: **Paddy Fleming** is continuing.
- Treasurer: **Jack Toumba's** term of office finishes in December 2010, nominations required.
- Assist. Secretary (memberships): **Cheryl Butz** is continuing

Also as previously announced Martin Curzon wishes to step down as Editor in Chief (after 10 years in post) and as ex-officio member of the Board at the end of 2010. Nominations are requested for this post.

Nominations for these positions should be sent in writing, supported by the signatures of at least two active members of EAPD and the signature of the nominee, to the Chairman of Nomination Committee by mail/fax/e-mail to:

Professor R.R. Welbury  
Glasgow Dental Hospital & School,  
378, Sauchiehall Street,  
Glasgow, Scotland, UK, G2 3JZ.  
Fax No. +44 – (0)141-331-2146.  
E-mail: r.welbury@dental.gla.ac.uk

## It should arrive no later than May 10th, 2010.

The nomination committee also wants nominations for the following committees:

- Education committee.
- Credentials committee.
- Nomination committee.

Finally, members of the EAPD Council are nominated or elected by their national group of paediatric dentists. As with all positions, incumbents may serve for only six years.

## Erratum

In the February issue of the EAPD (Volume 11, issue 1) some errors occurred in the tables of the paper:

- JG Lee, LB Messer. Intake of sweet drinks and sweet treats versus reported and observed caries experience. 2010;11(1):5-17.

In the headings of tables 2, 3 and 5 the letter designating the number of subjects should be N and not W. In table 5 the subgroup should be '...subgroup(N=100) of Australian children.' – and not 1,000.

In Table 7 there is a misalignment of the data in the lower half of the table. The top half of the table is correctly aligned. Therefore, the lower half alignment is off by half a line and should be:

Visible plaque	11 (11)	na	6(6)	54 (54)	na	29 (29)
Gingivitis	10 (10)	na	7 (7)	41 (41)	na	42 (42)
Areas of enamel	9 (9)	0	8 (8)	57 (57)	3 (3)	23 (23)
Enamel hypoplasia	17 (17)	na	0	80 (80)	na	3 (3)
Molar-incisor	14 (14)	na	3 (3)	68 (68)	na	15 (15)

Please enter these corrections in your copy. The Editor apologises and regrets these transcription errors.
