

## Erratum to: Chapters 3 and 104 of *Trends in Colloid and Interface Science V*

Mario Corti and Franco Mallamace

Erratum to:

Chapter 3 in : Mario Corti et al., *Trends in Colloid and Interface Science V*,  
DOI 10.1007/BFb0115927

This notice clarifies the relationship between ‘*Dynamical properties of lecithin-based microemulsions*. Authored by: F. Aliotta, ME Fontanella, S Magazù, G. Maisano, D. Majolino, P. Migliardo. *Progress in Colloid and Polymer Science* 89 [Trends in Colloid and Interface Science VI], 253-257 (1992). DOI 10.1007/BFb0116323’ and ‘*Dynamic light scattering studies in lecithin polymer-like gels*. Authored by: F. Aliotta, ME Fontanella, S Magazù, C Vasi, V Crupi, G. Maisano, D. Majolino. *Molecular Crystals and Liquid Crystals* 212 (1), 255-262 (1992). DOI 10.1080/10587259208037266’.

The articles were examined following the Committee on Publication Ethics (COPE) guidelines with regard to suspected redundant publication. The Editors of *Progress in Colloid and Polymer Science* (A. Schmidt, C. Papadakis, F. Kremer) recognize the re-use of figures 1, 2, 3. Yet, it is felt that the re-use is not central for the validity of the conclusions and interpretations drawn from the data. It was decided to publish this notice to alert readers to this conclusion.

Erratum to:

Chapter 104 in : Mario Corti et al., *Trends in Colloid and Interface Science V*,  
DOI 10.1007/ BFb0116028

This notice clarifies the relationship between '*Hypersonic properties in macromolecular aqueous solutions*. Authored by: F. Aliotta, ME Fontanella, S Magazù, U Wanderlingh. *Progress in Colloid and Polymer Science* 84 [Trends in Colloid and Interface Science V, volume edited by M Corti & F. Mallamace], 483-486 (1991), DOI 10.1007/BFb0116028' and '*Sound Propagation in Thixotropic Structures*. Authored by: F. Aliotta, ME Fontanella, S Magazù, F Wanderlingh. *Physics and Chemistry of Liquids* 23 (3), 163-173 (1991). DOI 10.1080/00319109108027253'.

The articles were examined following the Committee on Publication Ethics (COPE) guidelines with regard to suspected redundant publication. The Editors of *Progress in Colloid and Polymer Science* (A. Schmidt, C. Papadakis, F. Kremer) recognize the re-use of figure 1 and parts of the text. Yet, it is felt that the re-use is not central for the validity of the conclusions and interpretations drawn from the data. It was decided to publish this notice to alert readers to this conclusion.
