Erratum to: *Pediatr Radiol* DOI 10.1007/s00247-009-1470-8

There was an error in the presentation of ethnicity data in Table 1.

The percentages listed in the Nutritional column of Table 1 are calculated based on the total number of included patients with nutritional rickets. Of the 32 such patients included in our study, we had ethnicity data on 27 patients. The numerators in the column add up correctly to 27, but the percentages do not add up to 100% because they were calculated using 32 as a denominator.

The authors sincerely regret any confusion caused.
