Correction to: Mammalian Genome
<https://doi.org/10.1007/s00335-017-9730-7>

The original article has been published with an incorrect text in Materials and Methods section. The corrected text should read as:

DO G10 cohort: male DO mice ($n = 159$; J:DO, JAX stock number 009376) and female DO mice ($n = 158$) were obtained from the Jackson Laboratory (Bar Harbor, ME) as 148 sibling pairs (each pair of male and female are from same sire/dams but different litters) at 4 weeks of age. Mice were from outbreeding generation 10 (G10; received May 2012). The mice were individually housed with non-irradiated pine bedding and provided with high-efficiency

particulate air-filtered air and free access to food and water in a climate-controlled facility under a 12 h light/dark cycle at 22.2 ± 1.1 °C.
