In the published article Ferreira and Ganapathisubramani (2020), Eq. (4) should read instead

$$\nabla p = -\rho\{[(\mathbf{u} - \mathbf{u}_c) \cdot \nabla]\mathbf{u} + (\mathbf{u}_c \cdot \nabla)\bar{\mathbf{u}} - \nu\nabla^2\mathbf{u}\}. \quad (4)$$

Data provision: Any relevant data produced in this study is openly available on the research data archive of the University of Southampton at <https://doi.org/10.5258/SOTON/D1267>. The source code of the Poisson solver is openly available on the GitHub repository from the University of Southampton at <https://git.soton.ac.uk/bharath-lab/piv-based-pressure-estimation.git>.
