Correction to: Virchows Archiv

<https://doi.org/10.1007/s00428-018-2462-6>

The authors regret that the original version of this article, unfortunately, contained an error.

The values “1/3 (33%)” reported in the second to last sentence of the Discussion, referred to the fraction, represented by the two patients they describe, of NF1-associated JLIHMP cases in which a genetic test for *BMPRIA* has been hitherto reported, are wrong; the correct values are “2/2 (100%)”.

The online version of the original article can be found at <https://doi.org/10.1007/s00428-018-2462-6>
