Correction to: Applied Psychophysiology and Biofeedback
<https://doi.org/10.1007/s10484-018-9406-4>

The original version of this article unfortunately contained a mistake in text under “Subject” section. The text portions masked for peer review were erroneously overlooked during the later stage “[country deleted to maintain the integrity of the review process]” and “[organization deleted to maintain the integrity of the review process]” should be replaced with “German” and “Bundesinstitut für Sportwissenschaft” respectively.

Hence, the correct sentences should read as follows:

They were all competing on an international level as members of the German national team and had on average 31.14 registered fights (SD = 12.84, range = 8–50).

The project was first, assembled in collaboration between sport psychological experts and the head coach of the taekwondo national team and second, financially supported by Bundesinstitut für Sportwissenschaft.

The original article can be found online at <https://doi.org/10.1007/s10484-018-9406-4>.
