

**Erratum: “A Second-Order Continuous Regularization
Method for Nonlinear d -Accretive Equations
in a Banach Space”**

[*Diff. Equations*, 41(2005), no. 6]

I. P. Ryazantseva and O. Yu. Bubnova

1. Equation (5) should have the form

$$V(x, y) \geq L^{-1} \delta_X(\|x - y\|/\bar{c}_2) \quad \forall x, y \in X.$$

2. In Theorem 2, line 3, the words “uniformly Hölder continuous” should be replaced by “uniformly Hölder continuous on every bounded set.”

3. In Remark 1, line 2, the words “(1) and (2)” should be replaced by “(1)–(7).”

4. The numbering 1), 2), ..., 8) of conditions in Theorem 2 was erroneously replaced by (1), (2), ..., (8), which can result in a confusion, since there are display formulas with the same numbers. In this connection, one should have in mind that the references in page 812 (lines 10, 15, and 18), page 814 (line 6), page 815 (lines 6, 9, 11, 17, 20, and 22), and page 816 (lines 1, 4, and 11) pertain to these conditions rather than display formulas.
