### Erratum to: Hydrobiologia DOI 10.1007/s10750-015-2437-4

Due to an unfortunate turn of events, an error was introduced in the scale of the y axis of Fig. 3 in the above mentioned publication. The correct image and its caption are published here and should be treated as definitive by the reader.

**Fig. 3** Estimated densities of floating ehippia versus overall densities of ehippia accumulated during a month of ehippia formation period
