Erratum to: J Immigrant Minority Health DOI 10.1007/s10903-017-0633-1

The original version of this article unfortunately contained a mistake in “Perceived barriers to breast cancer screening” subsection. The sentence “Responses ranged from 1 = “strongly agree” to 5 = “strongly disagree”.” should read as “Responses ranged from 1 = “strongly disagree” to 5 = “strongly agree”.” The corrected text is given below:

Nine items from the 1990 Tampa survey [21] were used to assess perceived barriers to breast cancer screening (e.g., “getting a mammogram is a frightening experience”). Responses ranged from 1 = “strongly disagree” to 5 = “strongly agree”. Responses were averaged with higher mean scores indicating higher perceived barriers to screening. The sample Cronbach’s alpha = 0.82.

The online version of the original article can be found under doi:[10.1007/s10903-017-0633-1](https://doi.org/10.1007/s10903-017-0633-1).
