### Correction to: Reviews in Endocrine and Metabolic Disorders

<https://doi.org/10.1007/s11154-019-09483-2>

The authors would like to report an error in the formula describing the correction factor for the protein content in the serum/plasma. The formula is described as “multiply by  $(1 - (\text{serum protein content, in g/L}))$ ” and is currently written on the 5th page of the article, right column text; moreover, on page 6, under Table 3 - Legend.

The corrected formula should be written as “multiply by  $(1 - (\text{serum protein content, in g/mL}))$ ”.
