

Acknowledgement to reviewers

We would like to take this opportunity to acknowledge the time and effort devoted by reviewers to improving the quality of published work in UМУAI. Authors often write to express their appreciation for the detailed and useful comments that we obtain for them. Only rarely do we receive complaints, even when the reviews are negative. This is a tribute to the spirit in which reviewing is undertaken for this journal. It is a pleasure, therefore, to be able to pass on thanks from the Editorial Board to the following researchers who also reviewed papers for this year:
