### Correction to: J Econ Interact Coord

<https://doi.org/10.1007/s11403-018-0220-0>

In the printed version of the article, the conditions for the derivatives of Eq. (5) in Sect. 3.2 contained several misprints. The correct version reads as follows:

$$Y_t = \eta(\phi_t, \chi_t) (\xi K_2(\xi, \eta, \phi_t, V_t) V_t + (1 - \xi)K_1(\xi, \eta, \phi_t, \chi_t) \chi_t) - \eta(\phi_t) \quad (5)$$

so that the derivatives satisfy the following conditions:  $(\xi K_2)_1 > 0$ ,  $((1 - \xi)K_1)_1 < 0$ ,  $(\xi K_2)_{1,1} < 0$ ,  $((1 - \xi)K_1)_{1,1} < 0$ ,  $(K_i)_3 > 0$ ,  $(K_i)_{3,3} < 0$  for  $i = 1, 2$ .”

---
