Erratum to:
Clin Res Cardiol Suppl
10.1007/s11789-017-0089-9

The column heads “Males” and “Females” were interchanged in Table 1. The corrected version of Table 1 is reproduced here.

The sentence citing the table in the second paragraph of the Results section should read as follows: “Until 2015, the majority of patients were male (838 males vs 441 females) with most of them being 60 years or older (Table 1).”

The authors regret their error and apologise for any inconvenience caused.

Table 1 Age and sex distribution in the GLAR database (data interrogation until 2015)

Age	Females	Males	Total
Under 18	0	0	0
18–30	3	4	7
30–39	6	21	27
40–49	23	88	111
50–59	105	231	336
60–69	127	256	383
70 and older	177	238	415
Total	441	838	1279
Oldest patient			90 years old
Youngest patient			20 years old
