Author Correction: Clin Pharmacokinet
<https://doi.org/10.1007/s40262-017-0599-0>

In the original publication, Page 3, Sect. 4.3, the first sentence was incorrectly published.

The sentence which previously read:

“Cannabinoids are alkaloids; this chemical structure can induce apoptosis [6] as with intended alkaloid treatment (e.g. vincristine) in chemotherapy or with colchicine use in gout.”

Should read:

“The cannabis plant also contains alkaloids [*new reference]; these compounds can induce apoptosis [6] as with intended alkaloid treatment (e.g. vincristine) in chemotherapy or with colchicine use in gout.”
