Correction to: Journal of Racial and Ethnic Health Disparities
<https://doi.org/10.1007/s40615-018-0499-5>

Please note the following correction in the Methods section of this article:

The definition for goal-striving stress in the Jackson Heart Study included achievement defined as “where one was 10 years ago using a 10-point scale.” However, the correct definition for achievement is as follows: “where one is now using a 10-point scale.” This change in the wording of the definition of achievement does not affect the final study results.

The online version of the original article can be found at <https://doi.org/10.1007/s40615-018-0499-5>
