Correction to: Journal of Racial and Ethnic Health Disparities pp 1–8
<https://doi.org/10.1007/s40615-018-00550-z>

Please note the following correction in the second paragraph of the Results section of this article, in the sentences that read, “Table 2 shows the association of health literacy level, as well as each of the included covariates with adherence. Adequate health literacy was associated with a higher adherence score, i.e., “better” adherence ($b = 0.0572$, p value = 0.002, $R^2 = 0.008$), as compared to inadequate health literacy levels.”

In the second of these two sentences, “ $b = 0.0572$ ” should read “ $b = 0.572$.”

Publisher’s Note Springer Nature remains neutral with regard to jurisdictional claims in published maps and institutional affiliations.
