<https://doi.org/10.1007/s40806-021-00276-y>

Authors have found that different figures and tables were used in the version. During the proofreading process, authors made several requests including the removal of figures including photographs due to copyright issues, but it seemed that the publication process had proceeded. In the published version, the titles of the tables have been replaced, and the tables were published with incorrect contents. Furthermore, numbering of the tables is also different from those in the final version. Tables may have been placed incorrectly when the figures were requested for removal.

Original article has been corrected.
