Inadvertently, during publication process of the article, Figure 2 was incorrectly given as Figure 4. Figure 2 has now been corrected in the original version of the paper and is given below.

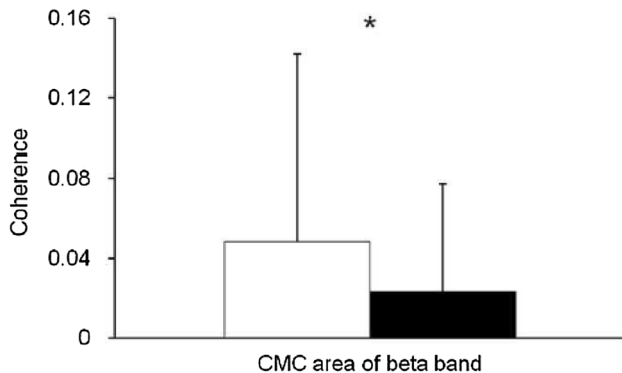

Fig. 2 The area of CMC in the beta band with (black) and without CS (white). *CMC* corticomuscular coherence, *CS* compression sleeve. Asterisk represents significant difference ($p < .05$) between conditions

The original article can be found online at <https://doi.org/10.1007/s40846-021-00601-7>.
