Page 5, Table 1, row 2 should read:

*2 — — — 3.60 ± 0.12 230 ± 10 175 ± 10 219 ± 5 69 ± 6 330 ± 12 31 ± 6

Page 5, left column, last paragraph should read:

The lifetime of positrons in silver sulfide samples with different average sizes of nanoparticles was measured at the Institute of Materials Physics, Graz University of Technology (Austria), on a $\gamma\gamma$ fast–fast coincidence spectrometer using $^{22}\text{NaCl}$ radioactive salt deposited on a 5- μm aluminum foil as a source of positrons. To record the positron annihilation spectra, we prepared a source with an activity of 1–2 MBq, which was placed between two silver sulfide tablets.

Page 8, Fig. 3 should be:
