

ERRATUM

Online address: <http://www.molmed.org>
doi: 10.2119/molmed.2012.00001.erratum

The author Sang-Kyou Lee has indicated that the two items below need to be corrected for this paper: Yu-Mee Wee, Monica Young Choi, Choong-Hoon Kang, Yang-Hee Kim, Jin-Hee Kim, Sang-Kyou Lee, Seung-Young Yu, Song-Cheol Kim, and Duck-Jong Han. (2010) The Synergistic Effect of Tautomycetin on Cyclosporine A-Mediated Immunosuppression in a Rodent Islet Allograft Model. *Mol. Med.* 16(7–8):298–306.

FIRST CORRECTION

The current affiliation for Sang-Kyou Lee at the time of paper publication should be added to the affiliations. Affiliation numbers and byline should be adjusted accordingly. Note the numbering for both Sang-Kyou Lee and Seung-Young Yu has been changed (without changing the actual affiliations previously given for them).

The published paper showed the following:

Yu-Mee Wee,¹ Monica Young Choi,¹ Choong-Hoon Kang,¹ Yang-Hee Kim,¹ Jin-Hee Kim,¹ Sang-Kyou Lee,² Seung-Young Yu,³ Song-Cheol Kim,¹ and Duck-Jong Han¹

¹Department of Surgery, Ulsan University College of Medicine and Asan Medical Center, Seoul, Korea; ²Department of Biotechnology, Yonsei University, Seoul, Korea; ³Department of Ophthalmology, Kyung Hee University, Seoul, Korea

The correction is below:

Yu-Mee Wee,¹ Monica Young Choi,¹ Choong-Hoon Kang,¹ Yang-Hee Kim,¹ Jin-Hee Kim,¹ Sang-Kyou Lee,^{2,3} Seung-Young Yu,⁴ Song-Cheol Kim,¹ and Duck-Jong Han¹

¹Department of Surgery, Ulsan University College of Medicine and Asan Medical Center, Seoul, Korea; ²Department of Biotechnology, Yonsei University, Seoul, Korea; ³current affiliation: Department of Biotechnology and National Creative Research Initiatives Center for Inflammatory Response Modulation, Yonsei University, Seoul, Korea; ⁴Department of Ophthalmology, Kyung Hee University, Seoul, Korea

SECOND CORRECTION

A second sentence should be added to the Acknowledgments and will read as shown here:

This work was supported by a grant (M1-0310-40-0003) from the National R&D program of the Ministry of Science and Technology. This work was supported by the National Creative Research Initiatives, a grant from the National Research Foundation of Korea funded by a Korean Government grant (2011-0000425) to S-K Lee, and the Brain Korea 21 (BK21) Program.
