

INDEX OF CONTRIBUTORS

- Amano, N. 277
Ambriola, V. 114
Assmann, U. 221
Azbel, I. 100
Azero, P.R. 180
Bishop, J.M. 72
Cook, D. 100
Dede, A. 319
Diez, G.M. 235
Dueñas, J.C. 128
Elrad, T. 291
Favre, L.M. 235
Franz, M. 207
Fricke, N. 86
García-Serrano, A. 166
Gervasi, V. 114
Geske, U. 59
Glesner, S. 249
Goeschka, K.M. 333
Goltz, H-J. 59
Heisel, M. 19
Heuring, V.P. 140
Huang, E.H. 291
John, U. 59
Jones, I.R. 140
Kastens, U. 152
Klint, P. 1
Lam, W. 45
Léon, G. 128
Lilienthal, C. 86
Lin, C.H. 291
Lippert, M. 86
MacGregor, K. 100
Martínez, P. 166
Pfahler, P. 152
Ray, P. 33
Roock, S. 86
Stassinopoulos, G. 319
Swierstra, S.D. 180
Tang, Z. 305
Toetenel, W.J. 263
Verhoef, C. 1
Watanabe, T. 277
Wolf, A. 59
Wolf, H. 86
Wortman, D.B. 194
Wynne, A. 100
Zahariadis, T. 319
Zimmermann, W. 249

KEYWORD INDEX

- abstract data type facility 263
- adaptation 291
- adoption process 128
- algebraic specification 235
- applets 207
- architectural description languages 128
- attribute grammars 180
- C-language 263
- case studies 1, 79
- change management 45
- colored Petri nets 140
- compilation 152, 194
- compilers 152, 194
- component systems 221
- composition 221
- configuration 59
- constraint logic programming 59
- cooperative systems 33
- coordination architectures 1
- CORBA 319
- CSCW 33
- database powered web applications 333
- decision controls 291
- design language 114
- discrete event systems 140
- distributed systems 72
- domain specific languages 152
- enterprise networks 33
- evolutionary development 1
- first-class messages 207
- formal methods 19, 235
- forward engineering 1
- frameworks 86, 207
- functional programming 180
- GUI-builder 86
- help-desk 33
- heterogeneous systems 1
- HTTP 319
- IIOp 319
- imperative programming 249
- information retrieval 319, 333
- information systems design and implementation 333
- Internet 319
- Java 72, 86, 100
- Java-C integration 100
- knowledge-based systems 166
- language design 79, 152
- language processors 194
- large software systems 128
- linguistic engineering 166
- meta-level architecture 277
- meta-programming 221
- mobile computing 277
- natural semantics 249
- object-oriented programming 235, 249
- open implementation 291
- optical computing 140
- optimization 59
- parsing 180
- Petri nets 140
- platform independence 86
- portability 86
- pretty printing 180
- process modeling 19
- prototyping 305
- reflection 277, 291
- requirements 114
 - evolution 45
- retailer 319
- reuse 207, 221, 235, 291
- semantic analysis 249
- simulation 140
- software adaptation 277
- software architecture 114, 128, 166
- software components 1, 207
- software engineering methodology 19
- software evolution 45
- specification 249, 305
- stepwise-refinement 305
- system implementation language 305
- system modeling 140
- system renovation 1
- technology forecast 194
- tele-medicine 100
- tele-teaching 100
- temporal logic language 305
- timed Petri nets 140
- TINA 319
