16. "Secondary gain" is a psychiatric term signifying the unconscious advantages that can accrue from an otherwise undesirable state. For example, certain advantages are derived from illness, such as rest, gifts, personal attention, or release from responsibility. Secondary gains explain some people's unconscious reluctance to change; the loss involved in giving up an undesirable state can seem far greater than the perceived gain.

2. Kets de Vries, M. F. R. (2011). *The Hedgehog Effect: The Secrets of Building High Performance Teams*. San Francisco: Jossey-Bass.

About the Author

Manfred F. R. Kets de Vries brings a different view to the much-studied subjects of leadership and the dynamics of individual and organizational change. Bringing to bear his knowledge and experience of economics (Econ. Drs., University of Amsterdam), management (ITP, MBA, and DBA, Harvard Business School), and psychoanalysis (Canadian Psychoanalytic Society and the International Psychoanalytic Association), Kets de Vries scrutinizes the interface between international management, psychoanalysis, psychotherapy, and dynamic psychiatry. His specific areas of interest are leadership, career dynamics, executive stress, entrepreneurship, family business, succession planning, cross-cultural management, team building, coaching, and the dynamics of corporate transformation and change.

Manfred Kets de Vries is the distinguished clinical professor of leadership development and organizational change at INSEAD, France, Singapore and Abu Dhabi. He was the Founder of INSEAD's Global Leadership Center, one of the largest leadership development centers in the world. In addition, he is program director of INSEAD's top management program, "The Challenge of Leadership: Developing Your Emotional Intelligence," and Scientific Director of the Executive Master's Program "Consulting and Coaching for Change" (and has five times received INSEAD's distinguished teacher award). He is also the Distinguished Visiting Professor of Leadership Development Research at the European School of Management and Technology (ESMT) in Berlin. He has held professorships at McGill University, the Ecole des Hautes Etudes Commerciales, Montreal, and the Harvard Business School, and he has lectured at management institutions around the world.

The Financial Times, *Le Capital*, *Wirtschaftswoche*, and *The Economist* have rated Manfred Kets de Vries among the world's leading leadership scholars. Kets de Vries is listed among the world's top 50 leading management thinkers and is among the most influential contributors to human resource management.

Kets de Vries is the author, co-author, or editor of more than 39 books, including *The Neurotic Organization, Leaders; Fools and Impostors; Life and Death in the Executive Fast Lane; The Leadership Mystique; The Happiness Equation; Are Leaders Born or Are They Made? The Case of Alexander the Great; The New Russian Business Leaders; Leadership by Terror: Finding Shaka Zulu in the Attic; The Global Executive Leadership Inventory; The Leader on the Couch; Coach and Couch; The Family Business on the Couch; Sex, Money, Happiness, and Death: The Quest for Authenticity; Reflections on Leadership and Character; Reflections on Leadership and Career; Reflections on Organizations; The Coaching Kaleidoscope;* and *The Hedgehog Effect: The Secrets of High Performance Teams*. Three further books are in preparation.

In addition, Kets de Vries has published over 350 scientific papers as chapters in books and as articles. He has also written approximately 100 case studies, including seven that received the Best Case of the Year award. He is a regular contributor to a number of magazines. His work has been featured in such publications as *The New York Times, The Wall Street Journal, The Los Angeles Times, Fortune, Business Week, The Economist, The Financial Times,* and *The International New York Times*. His books and articles have been translated into 31 languages.

In addition, Kets de Vries is a member of 17 editorial boards and has been elected a Fellow of the Academy of Management. He is a founding member of the International Society for the Psychoanalytic Study of Organizations (ISPSO), which has honored him with a lifetime membership. Kets de Vries is also the first non-American recipient of the International Leadership Association Lifetime Achievement Award for his contributions to leadership research and development; he is considered one of the world's founding professionals in the development of leadership as a field and discipline. The American Psychological Association has honored him with the Harry and Miriam Levinson Award (Organizational Consultation division) for his contributions to the field of consultation. He has been awarded the Freud Award for his contributions at the interface of management and psychoanalysis. He has also received the Vision of Excellence Award from the Harvard Institute of Coaching. In addition, he is the recipient of two honorary doctorates.

Kets de Vries is a consultant on organizational design/transformation and strategic human resource management to leading U.S., Canadian, European, African, and Asian companies. As a global consultant in executive leadership development his clients have included ABB, ABN-AMRO, Aegon, Air Liquide, Alcan, Alcatel, Accenture, Bain Consulting, Bang & Olufsen, Bonnier, BP, Cairn, Deutsche Bank, Ericsson, GE Capital, Goldman Sachs, Heineken, Hudson, HypoVereinsbank, Investec, KPMG, Lego, Liberty Life, Lufthansa, Lundbeck, McKinsey, ATIC, National Australian Bank, Novartis, Nokia, NovoNordisk, Origin, Shell, SHV, SpencerStuart, SABMiller, Standard Bank of South Africa, Unilever, and Volvo

Car Corporation. As an educator and consultant he has worked in more than 40 countries. In his role as a consultant, he is also the chairman of the Kets de Vries Institute (KDVI), a boutique organizational consulting firm.

The Dutch government has made him an Officer in the Order of Oranje Nassau. He was the first fly fisherman in Outer Mongolia and is a member of New York's Explorers Club. In his spare time he can be found in the rainforests or savannas of Central Africa, the Siberian taiga, the Pamir and Altai Mountains, Arnhemland, or within the Arctic Circle.
