INDEXES

There are three indexes below, one listing authors, a second listing ideas and concepts and a third listing examples. I have included the third index, covering all important examples, because often a reader associates an idea or a principle with the example that explains it. Such a reader, when wishing to locate an idea, may find it helpful to do so by referring to the examples index.

AUTHOR INDEX

- Balint, M. 99
Bandura, A. 185, 212
Bateson, G. 6
Beck, A.T. 167
Beech, H.R. 240
Bellack, A.S. 197
Berenson, B.G. 241
Berger, P.L. 67
Bergin, A.E. 3, 239, 240
Bernard, M.A. 174
Bion, W.R. 106
Bugental, J.F.T. 161
- Cameron, N.A. 152
Caplan, G. 55
Caputi, N. 143
Carkhuff, R.R. 241
Carp, F.M. 8
Cartledge, G. 213
Casement, P. 91, 102, 105, 161, 242
Cashdan, S. 162
Conte, H.R. 141
Csikszentmihayli, I.S. 85
Csikszentmihayli, M. 13, 48, 56, 57, 84
- Dicks, H.V. 132
Dryden, W. 167, 237
- Eichenbaum, L. 125, 139, 162
Ellenberger, H. 87
Ellis, A. 167, 174
Eysenck, H.J. 219, 241

SUBJECT INDEX

- actualising tendency 65
 advice, effect of 24
 ageism 8
 ambivalence 94, 127, 154
 amnesia, as a form of repression 151
 anal personality 127
 anal stage 127
 antecedents, (preceding behaviour) 194, 195, 207, 235
 management of 189–91
 problems with 198–9
 avoidance learning 229–30
 baseline 188, 194, 210
 difficulties in obtaining 197
 behaviour shaping 223–4
 bereavement 224
 brain function and extroverts and introverts 220
 change, general, produced by theories 3–6
 children, permissive attitudes towards 45, 63
 classical conditioning 217
 cognitive therapy
 methods of change used in 179–80
 role of explanation in 176–7
 role reversal in therapy 179
 use of humour in 180–2
 compulsive tendencies 112–13
 condensation 104
 conditional positive regard 39
 conditioning
 of extroverts and introverts 219–21
see also classical conditioning and operant conditioning
 conditions of worth 40
 confirmation 34, 83
 and change 38
 and choice of friends and marriage partners 37
 confrontation 22
 congruence 18–21, 68, 82, 243
 failures in 19
 relation to unconditional positive regard and empathy 25–6
 conscience 145
 (the) conscious 142, 144, 146, 147
 consequences
 following behaviour 189, 207, 235
 following thoughts 195
 problems identifying 199
 containment 130
 counter-transference 98–100, 102
 control (of one's life) 80, 157, 235
 and operant rewards 228–33
 importance of, demonstrated in learned helplessness, *see* learned helplessness
 cortex and extroverts and introverts 221
 credit/debit list 208–9
 crisis and needs 54–5
 death instincts 143
 defence mechanisms 149–57
 depression, *see* index of examples, Barbara (who was a depressed client in cognitive therapy) and depression
 disconfirmation 34, 83
 discounting progress (in cognitive therapy) 173
 discrimination, learned 218
 displacement 155, 156, 157
 disrespect, forms of 27
 dreams
 illustrative of id functioning 144
 interpretation of 103–5, 116–17
 education and person-centred principles 30
 ego 144, 146, 149, 159
 ego-ideal 145
 Electra complex 128
 emotions, useful and counter-productive 169
 empathic understanding 23–4, 243
 relation to congruence and unconditional

- positive regard 25–6
 enculturation 74
 erogenous zone 125
 evolutionary theory, its
 influence on Freud 147
 experience
 denial and distortion of 42
 organismic 39, 69
 relation to awareness as defined by Rogers 18, 66
 extinction, (of behaviour) 224–5
 extrovert 109, 219–21

 façade, effect on therapy 26
 family
 as a context for flow 60–3
 as a means of satisfying needs 54
 fixation 156
 flow
 characteristics of 56–60
 relation to person and activity characteristics 60
 within the family 60–3
 see also motivation, extrinsic and intrinsic
 free association 92, 103, 114–16, 117

 generalisation, from one stimulus to others 218
 genital stage 129

 helplessness, *see* learned helplessness
 humour 77, 180–2
 hysteria 147–9

 id 143–4, 146, 149, 155
 idealisation 94, 132–3
 ideal self 44
 identification 135–40
 in object relations theory 135
 in personality development 135
 in the development of boys 136–9
 in the development of girls 139–40
 similarity to modelling 245
 identity,
 and need for attention 51
 loss of by therapist 24
 see also self-image
 incremental change 193, 215
 insanity (or psychosis) 146
 insomnia 186
 interpretation 27, 93, 100–5, 117
 interventions, *see* psychological interventions
 introvert 109, 219–21

 latency period 129
 learned helplessness 230–2
 libido 143, 147
 life instincts 143
 love 75–6, 94

 mental breakdown 219
 models and modelling 193, 198, 211–13, 214–15, 245
 motivation
 as an actualising tendency 65
 extrinsic and intrinsic 55
 Maslow's hierarchy of needs 48–9
 see also flow and needs

 needs
 and the nature of crisis 54–5
 being-needs or B-needs 49
 consequences of unfulfilled need for attention 51–4
 deficiency-needs or D-needs 49
 family as the means of satisfying 54
 see also motivation

 neurosis 146
 neurotic trends 113–14, 118–19
 object relations theory 89
 and psychological differences between males and females 136–40
 manner in which objects are organised 130–3
 nature of objects 129
 stages of development described by 133–5
 Oedipus complex 128, 159, 161
 operant learning or operant conditioning 223
 see also behaviour shaping, extinction, reinforcement and punishment (an experimental demonstration of)
 optimism 73, 126, 182
 oral personality 127
 oral stage 126
 organismic experience, *see* experience
 overeating 189, 191, 197

 pain thresholds and extroversion and introversion 221
 paranoia 154
 peak experiences 79
 personality
 boundaries in female 139
 boundaries in male 138
 integration 45
 perception of 32
 person-centred therapy characteristics of 18–26
 relations to changes in the self-image 31, 32
 person-centred principles and education 30
 and work 29
 pessimism 73, 126, 182

- phallic stage 128
 phobia 217, 230
 pleasure principle 145
 positive mental health
 as a drive in therapy 29
 attributes of, identified
 by Maslow 69–80
 attributes of, identified
 by Rogers 65–9
 Maslow's criteria for 70
 see also self-
 actualisation
 positive regard 39
 and conditional
 relationships 39
 and self-esteem 39
 positive self-regard 39
 see also self-esteem
 (the) preconscious 142,
 146
 problem solving 74, 83,
 problems in children,
 whether they should be
 treated 201–3
 projection 101, 152–3
 psychological interventions
 factors common to all
 interventions and
 specific factors 240
 the importance of
 relationship in 240
 their effectiveness
 239–40
 psychosis (or insanity)
 146
 punishment
 an experimental as a
 form of reward 205
 demonstration 227–8
 as the basis of a false
 association 144
 effects of, on extroverts
 and introverts 221
 effects on children
 203–5, 228

 rationalisation 154, 157
 reaction formation
 153–4, 242
 recording behaviour 188,
 192, 207, 209–10
 difficulties in 197–8
 reflex reserve 228

 regression 155, 244
 reinforcement 225
 partial 225–6, 235
 schedules 225
 repression 87, 128,
 150–2
 resistance 92, 103, 117
 respect, *see* unconditional
 positive regard
 response, difficulty in
 defining 236, 244
 reward
 ideal form of 191–2,
 211
 increasing the
 frequency and/or the
 duration of behaviour
 209
 in the form of tokens or
 points 192, 211
 primary and secondary
 222
 relation to control
 228–33
 secondary rewards
 contrasted with control
 232
 used in conjunction
 with punishment 204
 see also reinforcement

 selective perception
 67–8, 78
 self-actualisation 49, 65,
 70
 self-change
 problems in achieving
 behaviourist self-change
 196–9
 see also self-help
 programmes
 self-concept, *see* self-image
 self-esteem 39, 83, 135,
 173
 self-help programmes
 best conditions for 184
 limitations of 184
 self-image 32, 66, 74,
 119
 discrepancies between it
 and the true self 40–2
 gender differences in
 43–4
 operating as a form of
 selective perception 68
 origins 33
 relation to acts of
 confirmation and
