

INDEX

- Analytic/synthetic distinction, 58
and meaning, 58
and natural kinds, 58–59
- Bias, 169
Boorse, Christopher, 23–24, 47–48,
52–54
Broussais, 13, 14
- Clinical equipoise, 10, 11, 219–221
Clinical trials, 7, 8, 10, 149–152, 158–160,
216–218
Cluster concept, 7, 137
Community equipoise, 10, 11, 219–221
Conceptual analysis
challenges, 56–59
classical view of, 56–57
family resemblance view of, 57
philosophical explication of, 59–61
Consensus, 173, 175
Consensus conferences, 8, 9, 167–169
Consensus statements, 168, 175
Culver, C. and Gert, B., 51–52
- Dennett, D., 8, 155
Depression, 126–128
Disease and health
biostatistical accounts, 23
dysfunction-requiring accounts of, 23,
48–49, 52–56
genetic, 5, 6
holistic accounts, 26
naturalist accounts of, 47–48
normative (value-laden) account of
disease, 14, 16, 17, 47–52
social constructivist accounts,
4, 5, 7, 35–43, 123–126,
131–133
Dreger, A., 14–16
- DSM IV, 6, 7, 124–126, 137, 147
Dysfunction, 52–56
- Enhancement, 13, 17–19
Equipoise, *see* Clinical equipoise;
Community equipoise
Essentialism/antiessentialism, 137, 143
Evidence-based medicine, 149, 150
Evolutionary psychology, 208
- Family resemblance, 57, 143–144
Fetal invasion, 184–186
Function, 53, 59
- Gender
dualism, 141, 142
functional role, 138, 144
identity, 139–143
identity disorder, 7, 137–139
Gene centrism, 85–87
Genetics, 113–114
behavioral, 203
Human Genome Project, 65, 67
of race, 67–68
- Hacking, I., 13, 14, 123, 199
Hare, R., 41–42
- Immunity, adaptive vs. innate, 189–190
Infertility, 9, 179
- King, L., 50–51
- MAOA, 10, 205–207
Maternal-fetal relationship, 9,
181–183
Medawar, P., 181–183
Medical epistemology, 1, 7–9, 169–171

- Medicine, role of, 13, 16, 17, 20
 Meta-analysis of evidence, 162–165
- National Institute of Health, 167, 170
 Natural selection, 6, 111–112, 114
 levels of, 116–117
 Normality, 2, 3, 13, 16, 17
- Objectivity, 171
- Phenotypic plasticity, 116, 208
 Pregnancy, immunological paradox of,
 181–183
 Psychiatric epidemiology, 124–130
- Race
 health consequences of, 73
 history of, 65–68
 social construction of, 74–75, 77–79
- Realism/antirealism, 4, 5, 35, 71–72
- Reduction, 5, 69–70
 Reproductive immunology, 180
 Risk factors, 209
- Self-nonsel self discrimination, 182
 Sex, biological, 139, 141
 Sexual dysfunction disorder, 128–129
 Silvers, A., 14–15, 16
 Social anxiety disorder, 130–131
 Social role, 73–76
 Supervenience, 38–39, 140
 Szasz, T., 16
- Transsexual, 137–138
- Violence, 10
 public health approaches to, 200–201
- Wakefield, Jerome, 48, 55–56
