- affine variety, 143
- algebraic variety, 143
- approximate decentralized fixed modes, 82
- automated highway systems, 171
  
- bipartite graph, 15
  
- centralized controller, 88
- communication networks, 61
- consensus, 109
- control interaction set, 76
- controllability Gramian, 152
- cooperative control, 171
  
- decentralized controller, 10
- decentralized fixed mode, 10
- decentralized implementation, 112
- decentralized overlapping control, 37
- decentralized overlapping fixed modes, 47
- decentralized servomechanism controller, 88
- derandomization technique, 26
- deterministic algorithms, 24
- digraph, 11
  
- expanded system, 55
  
- flight formation, 109
  
- generalized sampled-data hold function, 50
- geographically distributed subsystems, 139
  
- hierarchical structure, 171
  
- implementation cost, 82
- information flow matrix, 37
- information flow structure, 38
- inherent cost, 82
  
- interconnected system, 23
- Internet congestion control, 109
  
- Kalman observable form, 119
- Kosaraju's algorithm, 29
- Kronecker product, 48
  
- large space structures, 61
- large-scale systems, 172
- leader-follower formation, 103
- local controller, 25
- LQR decentralized control, 110
- Lyapunov equation, 172
  
- matrix inequality, 93
- maximal subgraphs, 66
- minimal sets, 67
  
- near-optimal decentralized controller, 88
  
- observability Gramian, 152
- observer-based controller, 118
- optimal centralized controller, 88
- optimal control interaction set, 81
- optimal decentralized controller, 122
- optimal overlapping structure, 62
  
- performance index, 98
- perturbed model, 100
- polynomial uncertainties, 149
- polynomially uncertain systems, 151
- power systems, 61
- pseudo-hierarchical system, 172
  
- quotient fixed mode, 11
- quotient overlapping fixed mode, 54
- quotient system, 11

- randomized algorithms, 24
- robust control, 149
- robust controllability, 160
- robust controllability degree, 155
- robust performance, 152
  
- sampled-data controller, 51
- separation principle, 121
- servomechanism controller, 92
- stabilizability, 61
- stabilizing controller, 38
- state estimation error, 120
- strongly connected, 11
- structural graph, 11
- structural initial value observable, 118
- structurally constrained controller, 40
  
- structurally fixed modes, 146
- structurally robust fixed mode, 143
- structured uncertainty, 151
- Sylvester matrix, 144
  
- Tarjan's algorithm, 29
- time complexity, 24
