- algebraic number, 27–28, 30–31, 33, 72, 99, 147, 153, 157
- algebraic over a field, 27–33, 39, 42, 44, 48, 50–51, 68, 72, 101–102, 124, 147, 171
- Algorithm
  - Calculation of Reciprocals, 167
  - Division, 17–19
  - Euclidean, v
  - Fundamental Algorithm for Symmetric Functions, 139
- All Constructibles Come from Square Roots Theorem, 96, 100–101, 108, 110
- approximation, 121, 123, 125
- Archimedes, 2
  
- basis, v, 11, 26, 40, 52–53, 55–56
- Basis for  $F(\alpha)$  Theorem, 46
- Basis for a Tower Theorem, 53
- Binomial Theorem, 107, 119
- bisect, 3, 77–78, 80, 91
- bisecting a line segment. *See* Standard Constructions.
- bisecting an angle. *See* Standard Constructions.
  
- C, 8
- Calculation of Reciprocals, 167
  
- calculus, 115, 117, 149, 177, 181
- coefficient, 13–15, 137, 144. *See also* leading coefficient, equating coefficients.
  - integer, 120, 128, 130, 147
  - rational, 148
- commutative, 10
- commutative group, 24
- commutative ring, 13, 24–25
- compass, 1, 3–4, 75–76, 78, 81. *See also* straightedge and compass.
  - collapsing, 82
  - noncollapsing, 82
  - rusty, 85
- complex analysis, 150
- complex number, 8, 16–17, 146, 156
- complex-valued function, 115, 149–150
- complex-valued integral, 149
- computer algebra, 182
- CON, 93–94
- constant, 69
- constant polynomial, 63–65, 70
- constructible number, 4, 75, 93–96, 99, 101, 103–104, 110
- constructing a line parallel to a given line. *See* Standard Constructions.
- constructing a product. *See* Standard Constructions.
- constructing a quotient. *See* Standard Constructions.
- constructing a square root. *See* Standard Constructions.

- constructing an angle of  $60^\circ$  or  $90^\circ$ . *See* Standard Constructions.
- Construction Rules, 89
- rule (i), 90
  - rule (ii), 90
- copying an angle. *See* Standard Constructions.
- cubic, 4, 68, 104
- De Moivre's Theorem, 107
- $\deg f(X)$ , 14
- $\deg(\alpha, \mathbf{F})$ , 33
- degree, 138
- least, 32–34, 62, 70
  - of a number over a field, 33, 42, 46, 99, 101
  - of divisor, 18
  - of extension field, 12, 181
  - of polynomial, 14, 17, 20, 46, 61–62, 118, 120, 138, 143, 145
  - of remainder, 18
- Degree of a Constructible Number Theorem, 101
- Degree Reducing Lemma, 166–167
- Delian problem, 1
- dense, 121
- dependent. *See* linearly dependent.
- derivative, 149–150
- differentiation, 118, 121
- dimension,  $v$ , 4, 11–12, 26, 40, 46, 52, 56, 165
- Dimension for a Tower Theorem, 55, 102
- dividend, 18–19
- division, 10, 165, 169, 171
- of polynomials, 17
- Division Algorithm, 17–19
- Division Theorem, 19, 65, 166, 172
- divisor, 18–19
- doubling the cube, 1, 61, 91, 93, 99, 104
- duplicating the cube, 1. *See also* doubling the cube.
- $e$ ,  $vi$ , 28, 115, 122–125, 131–132, 160
