

Index

- Agave* cuticle composition, 76
Air pollutants, paths into plants, 116
Air pollutants, plant cuticle sorption, 109
Aldrin, sludge plant uptake, 141
Alkylbenzenesulphonate, surfactant sludge plant uptake, 146
Alternanthera philoxeroides, wastewater cleanup, 53
Aquatic plants, heavy metals monitoring, 51
Aquatic plants, toxic elements monitoring, 51
Aquatic plants, trace element biomagnification, 1 ff.
Aquatic plants, trace element scavengers, 1 ff.
Aquatic plants, wastewater scavengers, 53
Aromatic surfactants, sludge plant uptake, 146
Aromatics, sludge plant uptake, 145
Arsenic, freshwater plants concentration, 4
- Benzene, plant cuticle permeance, 101
Benzopyrene, sludge plant uptake, 139
Bioavailability, plants sludge toxic organics, 129 ff.
Bioconcentration, plant sludge toxic organics, 134
Bioconcentration, trace elements in aquatic plants, 1 ff.
- Biomagnification, trace elements in aquatic plants, 1 ff.
Bryophyta (mosses) cuticle, 68
- Cadmium, freshwater plants concentration, 6
Cadmium, terrestrial plants concentration, 6
Callitriche platycarpa, trace element monitor, 52
Capsicum, oxygen permeation, 86
Carbon dioxide, plant cuticle sorption/permeance, 88
CDD, see chlorinated dibenzo-*p*-dioxins
CDF, see chlorinated dibenzofurans
Ceratophyllum demersum, trace element monitor, 52
Chelates, organic plant elemental uptake, 40
Chlordane, sludge plant uptake, 141
Chlorinated dibenzo-*p*-dioxins, sludge plant uptake, 144
Chlorinated dibenzofurans, sludge plant uptake, 144
Chlorinated insecticides, sewage plant uptake, 141
Chromium, freshwater plants concentration, 9, 10
Citrus, cuticle gas permeation, 79
Citrus, oxygen permeation, 86
Cobalt, freshwater plants concentration, 9, 12
Compost, polynuclear aromatic hydrocarbon source, 139

- Copper, freshwater plants concentration, 13
- Cuticle, air pollutants entryway, 117
- Cuticle, air pollutants sorption, 109
- Cuticle, carbon dioxide permeance, 88
- Cuticle, dual-mode gas sorption, 114
- Cuticle, gas permeance/sorption analysis, 102
- Cuticle, hydrogen fluoride permeance, 95
- Cuticle, nitrogen oxides permeance, 98
- Cuticle, organic vapor permeance, 101
- Cuticle, oxygen permeance, 85
- Cuticle, ozone permeance, 94
- Cuticle, plant as barrier, 70
- Cuticle, plant as membrane, 68
- Cuticle, plant diffusion coefficients, 65 ff.
- Cuticle, plant partition coefficients, 65 ff.
- Cuticle, plant permeance, 65 ff.
- Cuticle, plant polymer properties, 74
- Cuticle, plant sorption of gases, 65 ff.
- Cuticle, plant thickness, 69
- Cuticle, plant transport of gases, 65 ff.
- Cuticle, polysaccharides water transport, 111
- Cuticle, smog constituents permeance, 98
- Cuticle, sulfur dioxide permeance, 96
- Cuticle, water permeance, 91
- Cuticle, water vapor permeance, 90
- Cuticular barriers, air pollutants, 119
- Cuticular lipids, 70, 107
- Cuticular pores, 76
- Cutin, biopolymer of cuticle, 69
- DDD**, sludge plant uptake, 141
- DDE**, sludge plant uptake, 141
- DDT**, sludge plant uptake, 141
- Dibenzo-*p*-dioxins**, sludge plant uptake, 144
- Dibenzofurans**, sludge plant uptake, 144
- Dieldrin**, sludge plant uptake, 141
- Diethylhexyl phthalate**, sewage sludge, 134
- Diffusion coefficient**, plant cuticle, 71
- Dinitrophenol**, sludge acid-extractables, 143
- Dioxins**, sludge plant uptake, 144
- Dual-mode gas sorption**, plant cuticle, 114
- Ecosystems**, uncontaminated, freshwater plants, 36
- Eichhornia crassipes***, trace element monitor, 52
- Elodea canadensis***, trace element monitor, 52
- Elodea nutallii***, trace element monitor, 52
- Endrin**, sludge plant uptake, 141
- Environments**, uncontaminated, freshwater plants, 36
- Equisetum arvense***, trace element monitor, 52
- Equisetum fluviatile***, trace element monitor, 52
- Ficus***, oxygen permeation, 86
- Freshwater plants**, physicochemical element bioavailability, 38
- Freshwater plants**, trace element accumulation, 1 ff.
- Freshwater plants**, trace element bioavailability, 43
- Freshwater sediments**, heavy metals, 40
- Freshwater vascular plants**, defined, 2
- Gas transport**, plant cuticle, 65 ff.
- Gas transport**, plant models, 71
- Gas transport**, plant temperature dependence, 72
- Heavy metals**, aquatic food chain entry, 48
- Heavy metals**, aquatic plant toxicity, 49, 50
- Heavy metals**, freshwater plants, 1 ff.
- Heavy metals**, uncontaminated freshwater plants, 36

- Heavy metals, water/sediment cycling, 46
- Hepaticae* (liverworts) cuticle, 68
- Heptachlor, sludge plant uptake, 141
- Hexachlorobenzene, sludge plant uptake, 141
- Hexachlorobutadiene, sludge plant uptake, 141
- Hydrogen fluoride, plant cuticle permeance, 95
- Lead, freshwater plants concentration, 16
- Lettuce, diethylhexyl phthalate bioconcentration, 135
- Life form, plant, defined, 2
- Lindane, sludge plant uptake, 141
- Lipids, plant cuticular, 107
- Lycopersicon*, oxygen permeation, 86
- Manganese, freshwater plants concentration, 19
- Mercury, freshwater plants concentration, 22
- Molybdenum, freshwater plants concentration, 23
- Myriophyllum exalbescens*, trace element monitor, 52
- Myriophyllum verticillatum*, trace element monitor, 52
- Nickel, freshwater plants concentration, 25
- Nitrogen oxides, ion plant changes, 113
- Nitrogen oxides, plant cuticle permeance, 98
- Nitrosamines, sludge plant uptake, 145
- Nuphar lutea*, trace element monitor, 52
- Organic chelates, plant elemental uptake, 40
- Organic waste, toxic components sewage sludge, 129 ff.
- Organochlorine insecticides, sewage plant uptake, 141
- Oxygen, plant cuticle permeance, 84
- Oxygen, plant cuticle sorption, 84
- Ozone, plant cuticle permeance, 94
- PAH, see polynuclear aromatic hydrocarbons
- Partitioning, gas plant cuticle, 83
- PBB, see polybrominated biphenyls
- PCB, see polychlorinated biphenyls
- Pentachlorophenol, sludge acid-extractables, 143
- Permeance, plant cuticle, 72
- Permeation, gas plant cuticle, 77
- Phenols, sewage sludge acid-extractables, 143
- Phthalate esters, sludge plant uptake, 137
- Plant cuticle, air pollutants sorption, 109
- Plant cuticle, barriers air pollutants, 119
- Plant cuticle, description, 66, 68
- Plant cuticle, dual-mode gas sorption, 114
- Plant cuticle, gas permeance/sorption analysis, 102
- Plant cuticle, hydrogen fluoride permeance, 95
- Plant cuticle, nitrogen oxides permeance, 98
- Plant cuticle, organic vapor permeance, 101
- Plant cuticle, ozone permeance, 94
- Plant cuticle, polymer properties, 74
- Plant cuticle, polysaccharides water transport, 111
- Plant cuticle, smog constituents permeance, 98
- Plant cuticle, sorption of gases, 65 ff.
- Plant cuticle, structure/function, 68
- Plant cuticle, sulfur dioxide permeance, 96
- Plant cuticle, thickness, 69
- Plant cuticle, transport of gases, 65 ff.
- Plant cuticle, vapor transport, 65 ff.
- Plant cuticle, water vapor permeance, 90
- Plant cuticular lipids, 107
- Plant life form, defined, 2

- Plant uptake, sludge components, 129 ff.
- Plants, heavy metals accumulation, 1 ff.
- Plants, trace element accumulation, 1 ff.
- Plants, uptake of sludge components, 129 ff.
- Pollutants, priority sludge plant uptake, 129 ff.
- Polybrominated biphenyls, sludge plant uptake, 141
- Polychlorinated biphenyls, sludge plant uptake, 140
- Polymer membranes, plant, 71
- Polynuclear aromatic hydrocarbons, plant production, 138
- Polynuclear aromatic hydrocarbons, root crop concentration, 139
- Polynuclear aromatic hydrocarbons, sludge plant uptake, 138
- Polysaccharides, plant cuticle gas permeance, 111
- Polysaccharides, plant cuticle water transport, 111
- Polysaccharides, plant nitrogen oxide binding, 112
- Potamogeton perfoliatus*, trace element monitor, 52
- Potamogeton richardsonii*, trace element monitor, 52
- Priority pollutants, sludge plant uptake, 129 ff.
- Pteridophyta* (ferns) cuticle, 68
- Rhynia* cuticle, 68
- Sediment, heavy metals concentrations, 40
- Sediment, trace element concentrations, 40
- Selenium, freshwater plants concentration, 27
- Sewage sludge, acid-extractables, 143
- Sewage sludge, CDD plant uptake, 144
- Sewage sludge, CDF plant uptake, 144
- Sewage sludge, organochlorine plant uptake, 141
- Sewage sludge, PCB plant uptake, 140
- Sewage sludge, plant availability, 129 ff.
- Sewage sludge, surfactant plant uptake, 146
- Sewage sludge, toxic organics, 131
- Sewage sludge, volatilized organics, 131
- Silver, freshwater plants concentration, 28
- Sludge, acid-extractables, 143
- Sludge, CDD plant uptake, 144
- Sludge, CDF plant uptake, 144
- Sludge, organochlorine plant uptake, 141
- Sludge, phthalate ester plant uptake, 137
- Sludge, sewage PCB plant uptake, 141
- Sludge, sewage toxic organics, 131
- Sludge, surfactant plant uptake, 146
- Sludge, toxic organics plant availability, 129 ff.
- Smog constituents, plant cuticle permeance, 98
- Solanum*, oxygen permeation, 86
- Sorption, gas plant cuticle, 80
- Spermatophyta* (seed plants) cuticle, 68
- Stomata, air pollutants entryway, 117
- Sulfur dioxide, ion plant changes, 113
- Sulfur dioxide, plant cuticle permeance, 96
- Surfactants, sludge plant uptake, 146
- Toxaphene, sludge plant uptake, 141
- Toxic organics, sludge plant bioavailability, 129 ff.
- Toxic organics, sludge plant uptake, 129 ff.
- Trace elements, aquatic food chain entry, 48
- Trace elements, aquatic plant biomagnification, 1 ff.
- Trace elements, aquatic plant toxicity, 49, 50
- Trace elements, factors affecting freshwater plant uptake, 38
- Trace elements, freshwater plants, 1 ff.
- Trace elements, uncontaminated freshwater plants, 36
- Trace elements, water/sediment cycling, 46
- Transport, gas plant cuticle, 81

- Uranium, freshwater plants concentration, 29**
- Vanadium, freshwater plants concentration, 31**
- Vascular plants, trace element accumulation, 1 ff.**
- Volatile aromatics, sludge plant uptake, 145**
- Wastewater treatment, using aquatic plants, 53**
- Water hyacinth, wastewater cleanup, 53**
- Water permeance, plant cuticles, 91**
- Wax bloom, cuticular lipids, 70**
- Waxes, epicuticular, 70**
- Zinc, freshwater plants concentration, 32**
