

Index

A

- Abelian Theorems 191-7
- Absolute Convergence of
 - Complex Power Series 337-8
 - Double Series 78-9
 - Real Function Series 117-23
 - Real Power Series 134-5
 - Real Series 32-3
- Alternating Series, Leibnitz'
 - Test for Convergence 42-3
- Anti-differences, and Properties 294-300

B

- Basis of a Vector Space 420
 - Existence of 423-4
 - Ortho-Normal 432-3
 - Transformations of 425-6
 - Unique Representation 424-5
- Bolzano-Weierstrass Theorem 14-5
- Boundary of a Set 15, 22
- Bounded Real Sequences 16
- Bounded Variation Functions
 - 1-Dimensional 204-9
 - n-Dimensional 260-2
- Bracketing of Series 29-31

C

- C_r Inequality 542-3
- Cauchy Criterion for
 - Double Sequences 66
 - Real Sequences 20-1
 - Sequences Uniform
 - Convergence 100
 - Series Uniform
 - Convergence 118-27
- Cauchy Inequality for
 - Complex Series 531
 - Finite Series 527-30
 - Infinite Series 530
 - Riemann-Stieltjes Integral 529-31

- Cauchy Integral Formula 355-7
- Cauchy Integral Theorem 347, 350-4
- Cauchy-Riemann Equations 332-4
- Change-of-Variables in Riemann-Stieltjes Integral 243-4
- Characteristic Roots 461-84
- Characteristic Root, Largest 483-4
- Characteristic Vector 461
- Circle of Convergence of Complex Power Series 337
- Closed Set 12, 21-2
- Closure of a Set 12, 22
- Cofactor 398-400
- Comparison Test for Real Series 35-7
- Complement of Sets 1, 5
- Complex Functions 327-39
- Complex Integral 339-82
 - of a Continuous Function 340-6
 - Properties of 343-6, 352
 - of a Regular Function 347-69
- Complex Numbers 319-26
 - Polar Form 324-5
- Complex Power Series
 - Regularity of 338-9
- Complex Variables 319-82
- Complete Convergence, see Convergence, C
- Concave Function 503
- Continuity
 - of Complex Function 330
 - Left-Hand 147, 150
 - Right-Hand 149, 150
 - of Sum Function 136-7
 - Two-Sided
- Contour 339
- Contour Integration 378-82
- Convergence, Absolute 32-3
 - of Double Series 78-9
 - of Complex Power Series 337-8
 - of Real Function Series
 - of Real Power Series 134-5
- Convergence, Complete and Weak
 - of B.V.F.'s 208-9, 260
 - of C.D.F.'s 203-5, 260

- Convergence of Double Series 73-85
 - Tests for 79-80
 - Convergence, Pointwise of Sequence 97-8 of Series 111-17
 - Convergence, Uniform, of Real Function Sequences 98-110
 - Real Function Series 117-26
 - Real Power Series 135-6
 - Convergent Double Sequences 64
 - Convergent Real Sequences 17-21
 - Convergent Real Series 27
 - Conditions for 28, 43-4
 - Properties of 28-32
 - Convex Functions 496-504
 - Differentiable 498-9
 - n-Variable 501-2
 - Properties of 497-8
 - Convex Hull 493
 - Convex Sets 491-6, 499, 502
 - Combinations of 492
 - Representation Theorem 496
 - Separation Theorem 495
 - Support Theorem 496
 - Cumulative Distribution Functions
 - 1-Dimensional 201-4
 - n-Dimensional 255-60
- D
- DeMorgan's Rules 5
 - Dependent Row Vectors 417-8
 - Derivative of Complex Function
 - Bound on Modulus 364-5
 - Existence of 335-6
 - at a Point 330-6
 - Representation Theorem for 357-60
 - Determinant of a Matrix 395-410
 - Computation 400-1
 - Difference Equations 302-314
 - Linear 303-12
 - Non-Linear 306-7, 313
 - Simultaneous 307, 313
 - Difference Operators 293, 295
 - Difference of Sets 1
 - Divergence, Proper, of Real Sequences 17-8 Real Series 30
- Dominated Convergence Theorem 112-6, 165-8
 - Double Real Function Sequences 126
 - Double Real Sequences 63, 66-71
 - Double Real Series
 - of Real Functions 126
 - Equality of Iterated Sums 82-5
 - of Real Numbers 71-85
- E
- Entire Function 336
- F
- Factorial Functions
 - Ascending, Descending 288-9
 - Generalized 293-4
 - Fatou's Lemma 116-7, 165-8
 - Finite Differences 287-314
 - Summation of Series by 300-2
 - Operators 287-8, 295
 - Fundamental Theorem of Algebra 366-7
- G
- Game Theory Applications 25-7
 - Generalized Inverse of a Matrix 453-6
 - Generators of Vector Space
 - alteration of 420-1
 - Operations on 421-3
 - Geometric Series 139-40
 - Goursat's Lemma 347-50
 - Gram-Schmidt Algorithm 432-3
- H
- Hölder Inequality for
 - Complex Series 537
 - Finite Series 534-6
 - Infinite Series 536-7
 - Riemann-Stieltjes Integral 537
 - Hyperplane 494-500

Image of a Set, Direct and Inverse 13-4
 Independent Row Vectors 417, 420, 426-7
 Characterization of 417-8
 Indicator Function of a Set 96
 Inequalities 527-43
 Inf of
 a Function 22-7
 Real Set 9-10
 Inner Product of Row Vectors 428-30, 494
 Integral Test for Convergence of Real Series 34-5
 of Double Series 80
 Integration-by-Parts: Riemann-Stieltjes
 1-Dimensional 235-40
 n-Dimensional 280
 Intersection of Sets 1, 4
 Inverse Image of a Set 13-4
 Iterated Limits of
 Double Real Sequences 66-71
 Double Real Series 72, 75-8, 82-5

J

Jensen's Inequality 503

L

Lagrange Multipliers 514-20
 Laplace Transform 191-7
 Laurent Expansion 372-3
 Laurent's Theorem 370-3
 Length of Row Vector 428-9, 432
 L'Hospital's Rules 156-8
 Lim Inf of
 Double Real Sequences 65
 Real Functions 159-61, 164-5
 Real Function Sequences 95-7
 Real Sequences 16-9
 Set Sequences 4
 Lim Sup of
 Double Real Sequences 65
 Real Functions 162, 164-5
 Real Function Sequences 95-7
 Real Sequences 16-9
 Limit
 of Complex Function 328-9, 363-4
 of Double Real Sequences 64-6
 at Infinity 151-3
 Left-Hand 146, 50
 Point of Real Sequence 15-6, 20, 22
 Point of a Real Set 11, 22
 Pointwise, of Real Function Sequence 97-8
 Right-Hand 148, 150
 of Real Sequences 17, 20, 22
 of Set Sequences 5
 Two-Sided 144, 150, 363-4
 Limits of Real Functions:
 Properties 153-8
 Linear Equations 437-454
 Consistent, Inconsistent 447-51
 Homogeneous 437-446
 Non-Homogeneous 446-54
 Linear Programming 521
 Liouville's Theorem 365-6

M

Matrices 395-410
 Hermitian 407-8
 Non-Singular 406
 Normal 410
 Operations with 496-7
 Orthogonal 410
 Positive Definite 475-81
 Positive Semi-Definite 475-81
 Singular 405
 Skew-Symmetric 408-9
 Unitary 409
 Matrix
 Conjugate 397
 Diagonal 397-8
 Identity 397
 Non-Singular 402
 Rank 443-6
 Trace 467
 Transpose 397
 Max of Real Functions 22-7
 Max-Min Problems
 Constrained 509, 514-20
 Unconstrained 509-13
 Mean Value Theorem for Riemann-Stieltjes Integrals 225, 276
 Min of Real Functions 22-7
 Minkowski Inequality for
 Complex Series 541
 Finite Series 539-40
 Infinite Series 540-1
 Riemann-Stieltjes Integral 541-2
 Minor
 of a Matrix Element 398-400
 of a Square Matrix 398
 Principal 398-400

Morera's Theorem 360-1
Mutually Exclusive Sets 3-4

N

Non-Linear Programming 521
Normal Row Vector 432

O

1-1 Correspondence 3
Open Set 12, 22
Orders of Magnitude 181-97
 at Most: \circ 185-8
 Same: \sim 181-5, 188
 Smaller: \circ 186-8
Orthogonal Decomposition of
 Row Vectors 431
Orthogonal Row Vectors 430-3
Orthogonal Subspaces 431
Ortho-Normal Basis 432-3

P

p-q Inequality 532-3
Pole of Complex Function 368-70
Positive Definite Matrices 475-82
Positive Semi-Definite Matrices
 475-82
Power Series
 Complex 337-9
 Real 132-40
Principal Axes Theorem for
 Real, Symmetric Matrices
 471-3, 476
Principal Value of Real Integral
 by Contour Integration 380-2

Q

Quadratic Form (Real) 474-6, 482-4

R

Radius of Convergence 132-6
Rank of
 Matrix 443-6
 Matrix and Vector Space 427-8
 Vector Space 426-7

Ratio Test (D'Alembert) for
 Convergence 38-9
Regular Function
 Integral of 347, 350-69
 Properties 336-7
Regular Variation Function 195-7
Reordering of Series 29-31
Residue Theorem 373-4
 Integration by 378-82
Residue at a Point 374-87
 Evaluation of 374-6
Riemann-Stieltjes Integral
 Change-of-Variables 243-4
 Differentiation of 247-8
 1-Dimensional 215-48
 n-Dimensional 265-82
 Existence of 217-9, 266
 Extensions 222-5, 281, 241-2,
 267-74
 Properties 266-79, 276
 Sequences of 229-34, 279-80
 over Single Point 221-2, 268
Root Tests (Cauchy) for Convergence
 40-2

S

Sequence of
 Real Functions 97
 Real Numbers 15
 Sets 4
Series of Real Functions 110-27
 Interchanging Limit Operations
 111-17
Series of Real Numbers 27
 Tests for Convergence 34-44
Singularities of Complex Functions
 354-5, 373-4
 Essential Isolated 373-4
 at Infinity 373-4
 Isolated 373-4
Slow Variation Functions 195-7
Sterling Numbers
 First Kind 290, 292
 Second Kind 291-2
Submatrix 398-400
Sequence 15
Subspace (Vector) 418-9
 Basis of 420
 Generators 419-21
 Rank 426-7, 443-4
Sup of
 a Function 22-7
 a Real Set 9-10

Symmetric Difference of Sets 1

T

- Tauberian Theorems 191-7
- Taylor Series
 - Complex 362-3
 - Real 139
- Term-by-Term Differentiation of
 - Complex Sequences 361-2
 - Complex Series 361-2
 - Power Series 158-9
 - Real Sequences 109-10
 - Real Series 125-6
- Term-by-Term Integrations of
 - Complex Sequences 361-2
 - Complex Series 361-2
 - Power Series 137-8
 - Real Sequences 107-8
 - Real Series 123-5
- Term-by-Term Limits of
 - Complex Function Sequences 361-2
 - Complex Function Series 361-2
 - Real Function Sequences 102-6
 - Real Function Series 111-7, 123
- Trace of Matrix
 - Characteristic Roots and 467-8
- Triangle Inequality for
 - Finite Series 538
 - Infinite Series 538-9
 - Riemann-Stieltjes Integral 542

U

- Uniform Convergence
 - See also, Convergence, Uniform
 - of Continuous Function Sequences 102-5
 - of Continuous Function Series 123
- Union of Sets 1, 4

V

- Vectors 418-432
- Vector Spaces 418-32
