## C

$c_0$ , 366  
C-quasibarrelled space, 277  
Canonical copy of  $c_0$ , 366  
Čech-complete, 15  
Class  $\mathcal{RC}$ , 411  
Class  $\mathcal{R}$ , 411  
Class  $\mathfrak{S}$ , 3, 243  
Cofinal subset, 338  
Compact  
    Corson, 426  
    Eberlein, 456  
    Valdivia, 425

Compact line, 6, 367, 395  
    connectification, 397  
    jump, 396  
Compact resolution, 71  
Complementably universal space, 467  
Complemented subspace, 355  
Connectification, 397  
Continuous functor, 412  
Corson compact, 202, 426  
Countable Suslin number, 254  
CS-barrelled, 57  
CSPP, 268  
Cutting P-point, 416

## D

$D(\cdot)$ , 375  
Density condition, 170  
Diameter condition, 91  
Distinguished space, 327  
Docile, 321  
Dominating cardinal, 338  
Double arrow, 399  
Dual metric, 239  
Dyadic space, 232

## E

$\varepsilon$ -interchanges limits, 121  
Eberlein compact, 456  
Elementary submodel/substructure, 356  
Embedding-projection pairs, 469  
Extension operator, 402

## F

Family  
     $T_0$ -separating, 457  
First category, 13  
Fréchet–Urysohn space, 289

**G**

( $gDF$ )-space, 277  
 $\gamma$ -property, 309  
 $\mathfrak{G}$ -basis, 306  
 Generating projections, 363  
 Gul'ko compact, 202

**H**

$H(\theta)$ , 356  
 Hemicompact, 203

**I**

Increasing map, 395  
 Inductive limit space, 25  
 Internal point, 367  
 Interval topology, 395  
 Inverse sequence, 406  
   continuous, 406  
 Inverse system, 405  
   bonding map, 405  
   projection, 406  
   retracting, 406

**K**

K-analytic, 64  
 K-countably determined space, 64  
 K-sequence, 296  
 $k$ -space, 174  
 $k_R$ -space, 203

**L**

( $LB$ )-space, 25  
 ( $LF$ )-space, 25  
 Lindelöf, 65  
 Local  $\pi$  base at point, 216  
 Locally dense subspace, 59

**M**

Mackey topology, 77  
 Map  
   increasing, 395  
 Markushevich basis, 383  
   countably norming, 383  
   norming, 383  
 Measurable function, 176  
 Monolithic set, 409  
 Monolithic space, 290

**N**

Network, 68  
 Norming space/set, 361  
   generating projections, 363  
 Nowhere dense, 13

**O**

Operator  
   extension, 402  
   regular, 401

**P**

$\pi$ -base, 216  
 P-point, 416  
 Plichko pair, 386  
 Plichko space, 386  
 Point  
   internal, 367  
 Polish space, 16  
 Poset, 369  
    $\sigma$ -complete, 369  
   antichain, 463  
   closed, 369  
   cofinal, 369  
   directed, 369  
   special, 463  
 PRI, 372  
 Primarily Lindelöf, 438  
 Projection, 355  
   induced by  $(X, D, M)$ , 363  
 Projectional generator, 363  
 Projectional resolution, 372  
 Projectional sequence, 372  
 Projectional skeleton, 369  
   commutative, 391  
   equivalence of, 375  
 Projectively  $\sigma$ -compact, 207  
 Property ( $C$ ), 279  
 Property ( $C_1$ ), 311  
 Property ( $C_2$ ), 311  
 Property ( $C_3$ ), 311  
 Property ( $C_3^-$ ), 321  
 Property ( $C_4$ ), 318  
 Pseudo-Lindelöf, 222  
 Pseudobase, 174  
 Pseudocompact, 33

**Q**

Quasi-( $LB$ )-space, 82  
 Quasi-Suslin, 65  
 Quasibarrelled, 21

**R**

Reflection principle, 356  
 Regular ( $LM$ )-space, 308  
 Regular operator, 401  
 Regular SCP, 401  
 Relativization, 355  
 Resolution, 1

Retractional skeleton, 434  
 commutative, 434

**S**

$\Sigma$ -space, 386  
 $\Sigma$ -subset, 425  
 $\sigma$ -bounded, 207  
 $\sigma$ -compact, 201  
 $\Sigma$ -product, 380  
 $s$ -barrelled, 57  
 Scattered, 229  
 SCP, 355  
   regular, 401  
 Separable complementation, 355  
 Separating  
    $T_0$ , 457  
 Sequence  
   projectional, 372  
 Sequential, 237, 289  
 Space  
   complementably universal, 467  
   norming, 361  
   nowhere separable, 397  
 Split interval, 400  
 Strong condensation property, 271  
 Strongly WCG Banach space, 168  
 Strongly weakly K-analytic, 154  
 Strongly web-bounding, 221  
 Strongly web-compact, 137  
 Superresolution, 310  
 Suslin scheme, 91

**T**

Talagrand compact, 117, 202  
 Three-space property, 193  
 Tightness, 284  
 Tightness  $m$ , 215  
 Topologically bounded, 33  
 Trans-separable, 157  
 Transitive closure, 355  
 Transitivity, 355  
 Tree, 463  
   special, 463

**U**

Ultrabornological space, 60  
 Usco, 64

**V**

Valdivia compact, 425

**W**

$\omega$ -cover, 227  
 Weak noncompactness, 130  
 Weakly compact density condition, 171  
 Weakly compactly generated Banach space,  
   261  
 Weakly countably determined, 268  
 Weakly Lindelöf determined space, 440  
 Web-bounded, 221  
 Web-bounding, 221  
 Web-compact, 113  
 WLD, 440
