

# INDEX

## A

- Acetylation .....45  
 Adhesion ..... 2, 3, 54, 106, 129–140, 143–155, 215  
 Adhesion molecules.....2, 54, 131, 144–147, 152, 215  
 Airway hyper-reactivity/hyperresponsiveness ..... 257, 283, 292, 295, 298  
 Airway smooth muscle .....283  
 Allergic Effector Unit.....231–247  
 Allergy.....3, 5, 232, 298, 299  
 Annexin..... 180, 183–185, 193  
 Antigen presentation .....251–254  
 Antigen-presenting cells (APC).....21, 34, 40, 42, 83, 84, 86, 89, 137, 236, 251–254, 312, 317, 318  
 Anti-IgE.....246  
 APC. *See* Antigen-presenting cells (APC)  
 Apoptosis.....2, 3, 22, 26, 71–79, 177–194, 212, 254  
 Asthma ..... 1–3, 5, 8, 21, 29, 30, 81, 112, 157, 175, 177, 251, 257, 267, 283–292, 295–301, 306  
 Atopic asthma .....3, 5

## B

- BALF. *See* Bronchoalveolar lavage fluid (BALF)  
 Basophil degranulation.....7  
 B cell lymphoma 2 (Bcl-2) .....178  
 BMEos. *See* Bone marrow-derived eosinophils (BMEos)  
 BMMC. *See* Bone marrow-derived mast cells (BMMC)  
 Bone marrow ..... 2–4, 7, 21–27, 29, 53–56, 59–60, 63, 165, 207, 208, 233, 236–237, 244, 297, 298, 310–312, 314–317, 319  
 Bone marrow-derived eosinophils (BMEos) ..... 233, 234, 236–242, 244, 246, 247  
 Bone marrow-derived mast cells (BMMC)..... 233, 234, 236, 237, 239–247  
 Bone marrow eosinophils .....21–27, 29  
 Bronchoalveolar lavage fluid (BALF)..... 32, 41, 207, 208, 288–292

## C

- Ca<sup>2+</sup> influx ..... 88, 102, 103, 131, 132, 146, 154, 180, 184, 193  
 Calcium ionophore .....112

- Caspases .....72–77, 178, 181, 185–190  
 C57BL/6 mice..... 6, 30, 31, 205, 235, 244, 264, 284, 285, 291, 292, 306  
 CCL11/eotaxin-1.....94, 108, 111–114, 118–120, 143, 203–205  
 CCR3 ..... 30, 31, 82–84, 86, 89, 232, 239, 241, 244, 245, 317  
 CD4 .....34, 83, 84, 86, 87  
 CD34 ..... 29–43, 54, 56–57, 59–64, 66–69, 231, 297  
 CD45 ..... 30, 31, 34–37, 39–42, 62, 83, 84, 86, 87, 178, 297, 312, 318  
 CD69 ..... 137, 139, 178  
 CD193.....86  
 CD34 antigen.....29  
 CD2-IL-5 transgenic mice..... 310, 314  
 CD8<sup>+</sup> lymphocytes .....88  
 Cell-based assays .....104  
 Cell death ..... 3, 22, 25, 181, 183, 187, 188, 190  
 Cell isolation .....166  
 Cell separation.....14, 15, 54, 56, 59, 169  
 Cell separation methods .....14–18  
 Cell trafficking .....297  
 Cellular interaction..... 144, 147  
 Chemokine ..... 1, 3, 5, 41, 93, 94, 102, 111, 112, 129, 143, 203, 231, 232, 240–242  
 Chemotaxis.....2, 101–109, 144, 243  
 Chronic eosinophilic leukemia (CEL) ..... 46, 309–319  
 Class II major histocompatibility antigens .....251–254  
 Clone 15 cells .....45–50  
 Coculture..... 215–218, 223–224, 232, 236, 239–243, 246  
 Collagen .....145, 158, 159, 162, 163, 211, 284, 298  
 Common beta chain (CD18) .....144  
 Confocal microscopy ..... 114, 119, 120  
 Conjunctivitis .....197–202  
 Corticosteroids .....178  
 Counting cell numbers .....199  
 CR3 (CD11b) ..... 132, 139, 144, 319  
 Cytochrome c ..... 72, 178, 185

## D

- Degranulation.....2–6, 112, 115–116, 121–123, 127, 215, 232, 268, 295  
 Deoxyribonuclease.....260, 267

Dexamethasone .....186  
 DNA fragmentation .....71, 178, 179, 181, 190  
 Dorsal root ganglia ..... 215, 217–218, 224–227  
 Dry eye .....199, 202

**E**

ECP. *See* Eosinophil cationic protein (ECP)  
 Endothelial cell monolayer ..... 152, 154, 160–161  
 Endothelial cells ..... 143–155, 157–160  
 EoL-1 cells ..... 45–50, 103  
 Eosinophil  
     derived neurotoxin ..... 3, 93, 232, 267  
     esophagitis .....252  
     progenitors .....29, 30, 54, 57–58, 63–65  
     protein-X .....268, 272–274  
 Eosinophil cationic protein (ECP) ..... 3, 8, 93, 232,  
     267–269, 272, 273, 277  
 Eosinophilia ..... 5, 6, 93, 129, 162, 203, 267,  
     268, 296, 299–301, 309, 310, 318  
 Eosinophilic cell line ..... 45, 104, 162  
 Eosinophilic pneumonia .....251  
 Eosinophil peroxidase (EPX) ..... 3, 7, 93, 112,  
     129, 232, 267  
 Eotaxins .....6, 94, 108, 111, 112, 120, 143, 144,  
     150, 159, 161, 168, 203–205, 215  
 Epithelial cells ..... 1, 2, 158, 178, 199, 200,  
     202, 219, 318  
 Epithelium ..... 202, 222, 299, 305  
 E-selectin .....2  
 Exacerbations .....112, 257  
 Extravasation .....2, 143

**F**

Fas .....178  
 FGF .....159, 161  
 Fibroblasts ..... 220, 222, 244  
 Fibronectin ..... 3, 58, 129, 131, 139, 140,  
     144, 146, 148, 151, 152  
 Flow cytometric analysis .....58–60, 62, 66, 69, 183–185  
 Flow cytometry ..... 31, 34–38, 41, 74, 75, 79, 81–92,  
     130, 132–134, 136–138, 158, 163, 179, 182–185,  
     190–193, 244, 252–254, 317  
 Fluorescence .....31, 34, 39–42, 66,  
     69, 72, 74, 75, 84, 85, 102, 104, 107–109, 119, 130,  
     139, 159, 162, 185–189, 191, 192, 218,  
     223, 276, 279  
 Fluorescence-activated cell sorting .....42

**G**

Gastric mucosa .....3  
 Gastrointestinal tract ..... 1, 177, 197  
 Goblet cells .....202, 283  
 Granules .....3–5, 7, 8, 56, 64, 65, 93–100, 112, 139,  
     183, 193, 212, 231, 232, 241, 267–279, 317

Granulocyte/macrophage colony-stimulating  
     factor (GM-CSF) ..... 2, 4, 27, 29, 54, 57, 61,  
     64, 71, 74, 75, 77, 131–133, 135, 137–140, 178, 194,  
     251–254  
 Granulocytes .....2, 13–17, 19, 22–27, 54, 64, 66, 71,  
     81, 85, 90, 91, 166, 169, 171, 172, 178, 179, 211, 232,  
     295

**H**

*Helicobacter pylori* ..... 268  
 Helminth ..... 93, 268  
 Helminthic parasites .....5, 9  
 Helminthic worms .....6  
 Hematopoietic progenitors ..... 29, 54, 56–58, 61, 63, 68,  
     314–317  
 Histamine ..... 231, 232, 240, 241  
 Histochemical analysis .....63  
 Histone .....45  
 HL-60 .....45–50  
 House dust mite (HDM) .....284, 295, 296, 298–299,  
     301–303, 306  
 Human bone marrow ..... 21–27, 244  
 Human eosinophil differentiation .....53–69  
 Hypereosinophilic .....6  
 Hypereosinophilic syndrome ..... 46, 162, 197, 309  
 Hypoxia inducible factor (HIF)-1 .....178

**I**

IgE. *See* Immunoglobulin E (IgE)  
 IgG. *See* Immunoglobulin G (IgG)  
 Imaging .....74, 77, 114, 118, 147, 150, 166, 167, 171–174  
 Imatinib mesylate .....310  
 Immunoblotting ..... 72, 75, 77  
 Immunofluorescence ..... 114, 136, 269, 273  
 Immunoglobulin  
     IgE .....177, 205, 210–211, 231, 239, 240, 245,  
         246, 284, 287, 291, 298, 299  
     IgG .....74, 79, 83, 87, 89, 132, 136, 204,  
         209–210, 212, 300  
 Induced sputum .....1  
 Inflammation ..... 1, 2, 6, 9, 29, 30, 129, 143, 144, 157, 165,  
     166, 177, 178, 199, 203, 211, 232, 240, 251, 252, 257,  
     258, 283–285, 291, 292, 295–302, 305–306  
 Inflammatory cells ..... 144, 197, 199, 202, 284,  
     285, 287, 290–292  
 In situ hematopoiesis ..... 31, 34–38  
 Instrumentation/cell separation ..... 14, 15  
 Integrin .....2, 139, 144  
 Intercellular adhesion molecule 1 (ICAM-1) ..... 2, 144,  
     145, 152, 178  
 Interleukin  
     IL-2 ..... 86, 89  
     IL-3 .....2–4, 29, 54, 57, 61, 62, 64, 71, 233,  
         234, 251, 300, 311, 312

IL-4 ..... 5, 143, 144, 178, 194, 288  
 IL-5 ..... 2–4, 6, 7, 22, 29, 54, 55, 57, 61, 62, 64,  
 71, 112, 115, 121, 122, 131–133, 135, 140, 143, 178,  
 233, 234, 244, 254, 288, 297, 299, 300, 310, 311, 315,  
 318  
 IL-6 ..... 194, 242, 311, 312, 316  
 IL-8 ..... 242  
 IL-9 ..... 2  
 IL-13 ..... 2, 143, 144, 297, 299, 300  
 IL-33 ..... 2, 300  
 IL-5Ra ..... 30, 31, 34, 36, 37, 39–42  
 Iodixanol ..... 94–96, 98, 100  
 Isoosmotic gradient ..... 94

**J**

JAK2 ..... 311  
 JC-1 ..... 72–75, 78, 79

**L**

Lamin A/C ..... 72, 74, 77, 79  
 Leukocytes ..... 2, 7, 18, 82–89, 93, 101, 102,  
 143–145, 165–171, 203, 212, 267, 317, 318  
 Leukocyte trafficking ..... 143, 145, 165  
 Leukotrienes ..... 94  
 L-selectin ..... 2  
 Lung ..... 1, 2, 29–43, 123, 145, 147, 157, 166, 173, 174,  
 197, 207, 209, 244, 257–265, 284, 290, 298–300,  
 302, 304–306

**M**

Macrophage ..... 2, 8, 27, 32, 54, 71, 131, 178, 179,  
 186, 191–193, 284, 288, 291, 305  
 Major basic protein (MBP) ..... 3, 7, 93, 215, 232,  
 267, 268, 277, 318  
 Mast cell ..... 8, 66, 177, 207, 231–247, 295,  
 297, 311, 317–319  
 Mast cell degranulation ..... 232, 240  
 Mast cell–eosinophil interactions ..... 232  
 Mcl-1 ..... 181, 186  
 Mediators ..... 1, 4, 8, 30, 112, 177, 231, 232, 240,  
 241, 243, 245, 246, 268, 300  
 $\beta$ 2-Microglobulin ..... 55–57, 61–63  
 Migration ..... 2, 8, 101, 102, 104, 109, 111, 147,  
 150, 157, 162, 165, 166, 177, 178, 298, 299  
 Mitochondria ..... 178, 185, 269  
 Mitochondrial membrane potential ..... 71–75, 79,  
 178, 185–187  
 Mouse ..... 6–8, 29–43, 53, 55–57, 59, 63, 69, 87, 89, 112,  
 113, 115, 118–123, 125, 132, 206–208, 210–212,  
 215, 217–218, 224–226, 234, 236–239, 243, 244,  
 257–265, 283–292, 296–300, 305, 306, 311, 316–318  
 Mouse model ..... 6, 55, 61, 257, 258, 283–292, 296–300  
 Mucociliary clearance mechanisms ..... 257

Mucus hypersecretion ..... 298  
 Murine AEU ..... 239, 243

**N**

Nasal polyps ..... 244  
 Nerve cells ..... 217, 221, 229  
 Nerves ..... 9, 215–229  
 Neurotoxic ..... 267  
 Neutrophils ..... 2, 8, 13, 16, 21, 22, 26, 27, 63, 66, 81,  
 85, 86, 104, 129, 145, 165, 167, 169, 170, 175, 178,  
 191, 193, 284, 288, 291, 305  
*Nippostrongyloides brasiliensis* ..... 249  
 Nitric oxide (NO) ..... 8  
 NOD/SCID mice ..... 55–57, 61–63  
 Non-allergic eosinophilic conjunctivitis  
 (NAEC) ..... 197, 198, 202

**O**

Ovalbumin (OVA) ..... 14, 18, 30–32, 34, 99,  
 283–292, 295–299, 301, 302, 306

**P**

*Paramyxoviridae* ..... 258  
 Parasite ..... 5, 204, 205, 207, 209–211,  
 268, 277  
 Parasitic infections ..... 5–7, 9, 197, 203–212,  
 231, 232, 251  
 Parasympathetic ganglia ..... 215, 223–224  
 Parasympathetic nerves ..... 215, 217–224, 228, 229  
 PCR. *See* Polymerase chain reaction (PCR)  
 Peroxidase ..... 205, 210  
 Phagocytosis ..... 179, 182  
 of apoptotic cells ..... 186, 191  
 of apoptotic eosinophils ..... 191, 192  
 Phosphatidylserine ..... 178, 179, 184, 193  
 Physiological flow conditions ..... 2, 144  
 Platelet activating factor (PAF) ..... 4, 103, 106, 108,  
 111–113, 115, 118, 119, 121, 124, 240, 246, 247  
 p38 MAP kinase pathway ..... 54, 55  
 Pneumonia virus of mice (PVM) ..... 258, 259, 263, 264  
 Polymerase chain reaction (PCR) ..... 204–205, 209,  
 257–265, 269–275  
 Primary cell culture ..... 215  
 Promyelocyte ..... 65, 104  
 PS ..... 54  
 P-selectin ..... 2  
 Purification ..... 13–19, 21–27, 41, 96, 99, 104,  
 163, 181, 189, 193, 236

**R**

Radiolabelling ..... 166–170, 172  
 RANTES ..... 5  
 Reactive oxygen species (ROS) ..... 177

Receptor .....2–6, 46, 82, 86, 89, 93, 101, 111, 129–140,  
 157, 158, 178, 215, 231, 232, 240, 243, 246  
 Remodelling of asthma..... 1, 2, 295  
 Respiratory syncytial virus (RSV) .....8, 258, 268–275, 278  
 Retroviral transduction .....61, 63–64, 68, 310, 314–317  
 Ribonuclease.....260, 267  
 RSV. *See* Respiratory syncytial virus (RSV)

**S**

*Schistosoma mansoni*.....268, 271, 275–276, 279  
 Secretion.....3–5, 111–127, 178, 298  
 Sheer rate..... 147, 148, 150, 152  
 Siglec-8..... 62, 66  
 SNARE .....5  
 Sodium butyrate .....45, 47–50  
*Strongyloides ratti*..... 203  
*Strongyloides venezuelensis* ..... 203, 205–207  
 Subcellular fractionation..... 94–98, 312  
 Sulphate.....204

**T**

TGF  $\beta$  ..... 179  
 Th1.....296, 300  
 Th2..... 2, 6–8, 177, 284, 296–299, 306  
 Theophylline .....178

Th2 lymphocytes.....177  
 Thymic stromal lymphopoietin (TSLP).....2  
 Tissue remodeling ..... 1, 257, 295  
 Transgenic mice.....6, 112, 244, 254, 310  
 Transmigration .....2, 111, 157–163, 243  
*Trichinella spiralis* .....8, 203, 206–207, 211, 268  
 Tumour necrosis factor  $\alpha$  (TNF $\alpha$ ) ..... 144, 146, 147,  
 149, 151, 159, 161, 242

**U**

U937 cells.....181  
 Urea ..... 58, 235

**V**

Vascular cell adhesion molecule-1 (VCAM-1).....2, 131,  
 144, 145, 152  
 Vascular endothelial growth factor (VEGF)..... 145, 159, 161  
 VCAM-1. *See* Vascular cell adhesion molecule-1 (VCAM-1)  
 Viral.....6, 64, 197, 269,  
 272–275, 311, 313, 315, 316  
 VLA-4 (CD49d) .....86

**W**

White blood cell differential.....85–88
