

INDEX

A

Acetylation.....29
 Adenovirus..... 13, 285
 Affinity tags
 biotinylation peptide..... 36
 FLAG
 -SUMO..... 116
 GST,
 -E2-25K.....206f
 -Gam1..... 295f, 296f
 -MBD1..... 212
 -RanBP2..... 189
 -SEN1..... 249
 -SUMO..... 76
 -Ulp1.....52f
 His,
 -Aos1..... 52f, 188, 193
 -Gam1..... 297
 -MBD1.....212f
 -PCNA..... 93
 -SEN2..... 231, 275
 -SIM..... 107, 113, 115, 121
 -SUMO..... 20f, 34, 57, 89, 126,
 173f, 233
 C-terminal tag.....227f
 expression levels in yeast.....101
 fusions to YFP and ECFP.....260f
 stable transfection in cell lines.....20f
 use for recombinant protein
 expression..... 306f
 -SUMO-PLA₂.....277
 -SUMO-RanBP2.....176f
 -SUMO-Ulp1..... 177f
 -Uba2 52f, 171, 188, 192, 193
 -Ubc9.....52f, 172
 use under denaturing conditions..... 20f, 34,
 81f
 MBP,
 -MBD1..... 212f
 problems using tags.....188
 3-Amino-triazole (3-AT).....108, 109, 111
 Apoptosis..... 289, 298, 303
 Aprotinin, *see* Protease inhibitors
 Apyrase.....245, 249

Arginine

 conversion to proline.....29
 isotope-labeled.....20f, 25f
 stock solution.....22
 Aos1.....5, 6
 purification, *see* SUMO activating enzyme
 AP21967, *see* Rapamycin analog
 AXAM2, *see* SENP2

B

Biotinylation peptide, *see* Affinity tags
 Benzamidine, *see* Protease inhibitors
 Bradford reagent, *see* Protein concentration
 measurements
 BsaI..... 315
 Budding yeast, *see* *Saccharomyces cerevisiae*

C

C-terminal hydrolase, *see* SUMO proteases
 C18 resin..... 23, 27, 37, 41
 cDNA library.....53, 110, 118, 229
 CFP..... 250, 265
 excitation and emission.....242, 245,
 249, 257, 262, 270
 properties..... 250, 265
 -RanGAP1..... 257, 259
 -SUMO.....242f
 Chemical shift, *see* NMR experiments
 CMV promoter..... 24
 Complete™, *see* Protease inhibitors
 Contaminants..... 29
 Contrast2, *see* Mass spectrometry software
 Coomassie blue staining solution 53, 204
 CtBP..... 8
 Cyan fluorescent protein, *see* CFP
 Cyanogen bromide cleavage 127
 Cytokinesis..... 12, 83

D

Daxx..... 10, 12
 Denaturing conditions, *see* Lysis
 Desalting columns..... 53, 170
 Directional cloning..... 308
 DNase I.....169, 229, 307, 316

Doxycycline.....287, 294, 299
DTASelect2, *see* Mass spectrometry software

E

E1, *see* SUMO activating enzyme
E2, *see* SUMO conjugating enzyme
E2-25K..... 202
 purification.....205f
 purification of the sumoylated form.....207f
 in vitro sumoylation.....206f
E3, *see* SUMO ligases
ECFP, *see* CFP
Endopeptidase, *see* Lys-C endoprotease
Escherichia coli,
 lysis,
 native,
 BugBuster™ 126
 emulsion flex.....192, 194, 195
 freeze-thaw..... 193, 205, 246
 lysozyme..... 56
 sonication..... 135, 172, 217, 258,
 298, 300, 310
 sonication/lysozyme..... 232
 denaturing,
 urea..... 125
 preparation of competent cells.....213f
 transformation..... 216, 220, 308f
 use for production of SUMO-modified target proteins,
 see Sumoylation in *E. coli*

F

Felix, *see* NMR software
FK506..... 163
FKBP, *see* Rapamycin binding proteins
Fluorescence resonance energy transfer, *see* FRET
5-Fluoroorotic acid (5-FOA).....101, 108,
 111f
FPLC..... 169, 204, 229, 244
FRB, *see* Rapamycin binding proteins
FRET..... 241f, 253f
 use for desumoylation assays, *see* SUMO protease
 assays
 use for sumoylation assays, *see* Sumoylation assays
Fub2..... 5

G

Gam1..... 13, 285f
 stable inducible expression..... 287, 294
 transient expression293f
 purification,
 as GST-tagged protein294f, 299f
 as His-tagged protein 297
Gel filtration..... 53, 169, 189, 207, 229, 245
Genome Stability..... 10f

Glu-C protease.....47
Glutathione.....57, 190, 195, 289
 effect on Ulp1 activity..... 313
Glutathione S Transferase, *see* Affinity tags
Glutathione Sepharose..... 53, 56, 195, 203,
 213, 289

GST, *see* Affinity tags
Gradient gels..... 30

H

HADDOCK, *see* NMR experiments
HDACs.....5, 8, 10, 285
Heat shock..... 13
Heterodimerization by rapamycin, *see* Rapamycin
High-throughput analysis,
 FRET assays..... 241, 253, 256, 267
 reporter-based assays..... 269f, 280
His-tag, *see* Affinity tags
Histone deacetylases, *see* HDACs
HPLC..... 23, 37, 41, 46, 127
HSF1..... 12
HSQC, *see* NMR experiments
Hus5..... 5
Hydrolase, *see* SUMO proteases

I

IA, *see* Protease inhibitors
ICAT..... 28
IkB α 12
IMAC, *see* Ni-NTA affinity chromatography
Imidazole,
 stock solution..... 86, 256
 use..... 22, 38, 57, 89, 101, 124, 169, 189f,
 229, 256, 289, 305, 307, 312, 316
 effect on Ulp1 activity.....315
Immobilized metal affinity chromatography, *see* Ni-NTA
 affinity chromatography
Immunofluorescence microscopy..... 160
In vitro expression cloning, *see* IVEC
Inclusion bodies..... 310, 312
Insolubility of proteins.....221, 310, 316
International Protein Index (IPI)..... 28
Iodoacetamide, *see* Protease inhibitors
Ion trap, *see* Mass spectrometry instruments
IPTG,
 influence on protein expression..... 220
 stock solution.....52, 124, 169,
 189, 203, 213, 229, 244, 256, 289, 307
 use..... 54, 126, 171, 192, 205,
 217, 232, 246, 258, 297, 309
Isoelectric point,
 influence of sumoylation.....209
Isopropyl β -D-1-thiogalactopyranoside, *see* IPTG
Isotope labeling, *see* SILAC

- iTRAQ..... 28
IVEC..... 52f
- K**
- Keratin..... 29
- Kinetic assays,
SUMO conjugation, *see* Sumoylation
SUMO deconjugation, *see* SUMO Proteases
- Kinetic parameters,
calculation..... 178, 185, 235,
238, 275
- L**
- Leupeptin, *see* Protease inhibitors
- Luciferase assay..... 143, 148f
- Lys-C endoprotease..... 23, 27, 37, 40
- Lysine,
isotope-labeled..... 22, 30f
stock solution..... 22
- Lysis,
of bacterial cells, *see Escherichia coli*
of mammalian cells,
denaturing,
guanidine..... 26f
SDS buffer..... 72
native..... 145, 159, 292f
of yeast cells, *see Saccharomyces cerevisiae*
- Lysozyme,
stock solution..... 52, 244
use..... 56, 169, 198, 205,
229, 246
- M**
- Mascot, *see* Mass spectrometry software
- Mass spectrometry..... 20f, 33f
comparison to the two-hybrid system..... 117
instruments..... 37, 45
software and algorithms,
Contrast2..... 37, 43
DTASelect2..... 37, 43
Mascot..... 23, 28, 45
MSQuant..... 23, 28
Pep_probe..... 45
RawXtract..... 37
SEQUEST 37, 43
SpectrumMill..... 23
- MBD1..... 212
purification of the sumoylated form..... 212f
sumoylation in *E. coli*..... 212
- Meiosis..... 6, 11
- Methylation..... 29
- Mms21..... 5, 8, 11
- Mobility shift by sumoylation, *see* Sumoylation
- MSQuant, *see* Mass spectrometry software
