

Index

A

Achalasia

and Chagas' disease (*see* Chagas' disease (CD))

in children (*see* Pediatric achalasia)

diagnosis, 15

diagnostic evaluation

ambulatory 24-h pH monitoring, 19–20

barium swallow, 18

esophageal manometry, 18–19

upper endoscopy, 17

end-stage (*see* Esophageal resection)

history of surgery, 1

esophagogastrotomy, 3–4

fundoplication, partial, 4–5

Heller myotomy, 3

Hertz's theory, 2

and pathophysiologic theories, 2

POEM, 6

robotic surgery, 6

single-site surgery, 6

surgical technique, standardization, 5–6

from thoracoscopic to laparoscopic
cardiomyotomy, 5

Zaaijer, golden era of, 3

incidence, 15

pathophysiology

complications, 11

diagnosis, 11

treatments, 10–11

symptom evaluation

aspiration, 15

chest pain, 16

dysphagia, 15

heartburn, 15–16

regurgitation, 15

symptom scores, 16

treatment

anterior vs. posterior fundoplication, 61

fundoplication, 60–61

laparoscopic Heller myotomy, 60–61

minimally invasive surgery era, 60

open era, 59–60

partial vs. total fundoplication, 61

Allgrove syndrome, 129

Ambulatory 24-h pH monitoring, 19–20

Anorexia nervosa (AN), 124

Anterior vs. posterior fundoplication, 61

Aperistalsis, 10, 11

Aspiration, 15

4A syndrome, 129

Avoidant/restrictive food intake disorder (ARFID),
124–125

B

Barium swallow

bird-beaking findings, 12

dilated esophagus, 99

findings, 18

POEM, preoperative testing, 46

recurrent dysphagia, 107

Binge eating disorder (BED), 124

Botulinum neurotoxin (BoNT)

achalasia and Chagas' disease, 28

in achalasia treatment methods, 34–35

chemistry, 31–32

clinical evidence, 35–36

history of, 31

mechanism of action, 32–33

medical use, 33

patient preference, 36

side effects and contraindications, 33–34

Browne-McHardy pneumatic dilators, 39

Bulimia nervosa (BN), 124

C

Cancer risk, achalasia and Chagas' disease, 27

Cardioplasty, vagotomy and Roux-en-Y gastrectomy
(CVG), 28–29

Chagas' disease (CD)

cancer risk, 27

causes, 23–25

clinical presentation, 25

diverticulum formation, 27

esophageal dilation, 27

esophageal motility

esophageal body, 25–26

lower esophageal sphincter, 27

mucosal abnormalities, 27

- Chagas' disease (CD) (*cont.*)
