

# Index

## A

- Advection-diffusion equation, 227–230, 234, 238, 245
- Average heat conduction equation, 214
- Average temperature, 214, 220
- Axisymmetric problem, 35, 36, 102, 207, 209

## B

- Ballistic heat conduction, 16, 92
- Bending moment, 213
- Bessel function, 7, 8, 72, 89, 113, 198, 199
- Boundary condition, 4, 24–27, 57, 211, 220, 221, 224
- Bromwich path, 193, 206

## C

- Caputo derivative, 4, 16, 28
- Cattaneo equation, 17–19, 192
- Cauchy diffusion, 174, 182
- Cauchy problem, 36, 54, 122, 131, 134, 172, 175, 176, 179, 181, 231, 233, 236, 243
- Central symmetric problem, 117, 118, 151, 181
- Classical thermoelasticity, 21, 38, 108, 113, 139, 157, 161, 196, 209, 217
- Complementary error function, 106
- Convective heat exchange, 27, 216, 219
- Cylinder, 35, 55, 58, 62, 66, 87, 93, 100
- Cylindrical coordinates, 29, 87, 89
- Cylindrical hole, 70, 74, 79, 81, 96

## D

- Delta-pulse, 52, 109, 126, 133, 152, 186
- Delta-source, 56, 136
- Diffusion equation, 130, 228, 230, 232, 235, 241, 244, 247
- Diffusive stresses, 230, 238
- Dirac delta function, 52
- Dirichlet boundary condition, 25, 35, 59, 72, 87, 88, 103, 138
- Displacement potential, 13, 29, 90, 104, 119, 196, 231
- Duhamel–Neumann equation, 21

## E

- Elliptic integral, 40, 83, 174
- Equilibrium equation, 28, 87, 137, 212
- Error function, 106
- Exponential Fourier transform, 88, 95, 97, 231

## F

- Fick law, 228
- Finite Hankel transform, 58, 67, 68, 88, 90, 95
- Finite sin-Fourier transform, 138, 150
- First Cauchy problem, 43, 118, 122, 129, 131, 177, 185
- First fundamental form, 214
- Fourier law, 13, 15, 17, 228
- Fourier transform, 5–7, 9, 89, 90, 99, 119, 182
- Fractional diffusion equation, 241, 247
- Fractional heat conduction equation, 13, 25, 42, 54, 75, 80, 87, 171, 181
- Fractional telegraph equation, 191, 204, 229

**G**

Galerkin vector, 13, 28, 30  
 Gamma function, 2  
 Generalized Mittag-Leffler function, 42  
 Geometrical relation, 21, 212

**H**

Hankel path, 193, 206  
 Hankel transform, 7, 29, 37, 41, 58, 103, 108, 113, 172, 195, 197  
 Heat capacity, 14, 211, 224  
 Heat conduction equation, 13, 15, 20, 23, 25, 26, 36, 41, 54, 70, 88, 102, 118, 126  
 Heaviside step function, 53, 135, 140, 201  
 Helmholtz equation, 15, 16, 38, 61, 69, 129, 143  
 Heuman Lambda function, 40, 84  
 Hilbert transform, 6

**I**

Initial condition, 4, 28, 36, 52, 54, 58, 67, 70, 75, 88, 102, 118, 123, 133, 138, 145, 150, 172, 177, 181, 192, 205, 220, 241

**K**

Kirchhoff–Love assumptions, 212

**L**

Lamé constants, 21, 231  
 Left-sided fractional derivative, 4, 5  
 Left-sided fractional integral, 2  
 Liouville fractional integral, 2, 5  
 Localized heat conduction, 38, 52, 92, 111, 132, 164  
 Localized thermoelasticity, 61  
 Long-tail kernel, 229  
 Love function, 13, 88, 90, 104

**M**

Mathematical Neumann boundary condition, 79  
 Mathematical Robin boundary condition, 25  
 Median surface, 211, 222, 224  
 Mittag-Leffler function, 18, 37, 40, 45, 80  
 Mixed coordinate system, 211, 215  
 Modified Bessel function, 83, 99, 198

**N**

Neumann boundary condition, 25, 35, 70, 88, 117, 146  
 Nonperfect thermal contact, 211, 224

**P**

Perfect thermal contact, 13, 222  
 Physical Neumann boundary condition, 26, 35, 79, 117  
 Physical Robin boundary condition, 26  
 Poisson ratio, 24, 214, 231  
 Polar coordinates, 7, 72, 105, 171, 237

**R**

Representation of thermal stresses, 28  
 Riemann–Liouville derivative, 3  
 Riemann–Liouville integral, 3  
 Riesz operator, 171  
 Riesz–Feller fractional derivative, 6  
 Right-sided fractional derivative, 5  
 Right-sided fractional integral, 2  
 Robin boundary condition, 25, 26

**S**

Second Cauchy problem, 35, 42, 45, 117, 122, 125, 128, 133, 178, 184  
 Shear force, 213  
 Short-tail kernel, 16  
 Source problem, 35, 42, 48, 54, 117, 126  
 Space nonlocality, 13, 14  
 Sphere, 117, 135, 138, 140, 142, 145, 147, 148  
 Spherical coordinates, 30, 118, 171, 181  
 Spherical hole, 151, 152  
 Stefan boundary condition, 27  
 Strain tensor, 21, 212, 231  
 Stress tensor, 21, 39, 57, 71, 90, 98, 104, 119, 150, 196, 213, 231, 234, 245

**T**

Telegraph equation, 16, 20, 23, 192, 199, 202, 205, 209, 211, 218  
 Thermal coefficient of linear expansion, 214  
 Thermal coefficient of volumetric expansion, 21  
 Thermal conductivity, 14, 211, 224  
 Thermal diffusivity coefficient, 15, 24  
 Thermoelasticity without energy dissipation, 22, 39, 53, 61, 135, 162, 200  
 Thin shell, 211, 214

Time nonlocality, [13](#), [14](#)  
Transverse shear force, [213](#)  
Twisting moment, [213](#)

**W**

Wave equation, [16](#), [46](#), [52](#), [69](#), [92](#), [127](#), [140](#),  
[144](#), [204](#)

Wave front, [52](#), [127](#), [204](#)  
Weber transform, [72](#), [97](#), [101](#)

**Y**

Young's modulus, [214](#)
