

Index

A

ArcGIS, 120, 136–138, 160, 165
Artificial neural networks (ANN), 161
Auto-regressive moving average (ARMA) models, 161

B

Big data, 1–13, 18, 20, 56, 71–78, 93, 104, 123–125, 131, 137, 138, 156
Biomarkers, 107–116
Breast cancer, 107–116

C

Case-based reasoning, 45, 52
Case study, 38, 40–41, 45–58, 76–77, 119–138
Characterizing user behavior, 17–35
Clustering, 2, 19, 52, 144, 147–150, 152, 153, 155, 156
Collaborative filtering (CF), 79–82
Compatible personality, 61, 66
Component composite, 38
Composites, 37–43
Computed composites, 39
Customer relationship management (CRM), 45–58

D

Data analysis for healthcare, 144
Data analytics, 1–13, 56, 61–68, 122, 123, 125
Data mining, 2, 47, 62–64, 68, 125, 159–162
Decision tree (DT), 94, 161
Digital elevation model (DEM), 162
Displacement tracking matrix (DTM), 78

F

Facebook, 1–13, 17, 80
Forced migration, 71–78
Frequency analysis, 122, 125, 126, 128, 137
Frequent patterns, 2–11, 124

G

Gandy nomogram, 144, 147
Gauging stations, 162–166
Geovisual analytics, 159–167
Google map, 120, 128–130, 135, 138

H

Health service delivery, 143–156
Hierarchical prediction model, 63
Hybrid recommendation, 79, 80
Hydrological data, 159–167
Hydrological knowledge, 166

I

Implicit social networks (ISNs), 79–91
Industry-academia collaboration, 45–58
Information retrieval (IR), 72–74, 77, 108
Investigative analysis (IA), 37

K

Knowledge discovery, 125

L

Latent Dirichlet allocation (LDA) model, 74–76, 78, 120, 131, 132

M

Machine learning, 94, 95, 104, 138

N

Named entity recognition, 93–104

Neural networks (NN), 167

O

Overlapping composites, 39

P

Paper recommendation, 81, 86

Patient mobility, 143–156
analysis, 156

Personnel selection, 61–68

PEVNET, 37, 38, 41–43

Q

Quantum GIS (QGIS), 120, 129, 135–138

R

Reference composites, 39, 40

Relation composites, 39

S

Social bookmarking websites, 80, 81, 90

Social networks, 1–13, 17, 19, 23, 79–91, 125
analysis, 4–7

Social question and answer websites, 119–138

Stack Exchange Data Explorer (SEDE), 122,
126, 127, 137

Statistical regression models, 19

T

Text mining, 108, 122, 125, 127

Time series analysis, 107–116

Time series data mining (TSDM) techniques,
161

Topic intrusion, 132–134

Topic modeling, 72, 119–120, 129–137

Transportation engineering (TE), 119–138

Turkish healthcare system, 145

V

Virtual composites, 38

W

WaterVis, 159–167

Weather stations, 159, 162–165

Word intrusion, 132–134

Y

Yelp social network, 17–35
