

Index

A

- Abdominal paracentesis, 34
- Abdominal X-ray, 1
- Abscess, 5
- Abscessogram, 49
- Acute cholecystitis, 7
- American Association for the Study of Liver Diseases (AASLD), 33
- American Association for the Surgery of Trauma, 94
- Angiography, 95
- Appendicoliths, 1
- Arterial embolization techniques, 84
- Arteriogram, 87
- Ascites, 32, 33, 35–37
 - causes, 31
 - definition, 31
 - diagnosis, 32–33
 - grading system, 33
 - intraabdominal accumulation, 31
 - malignant, 38–39
 - paracentesis
 - diagnostic, 33–34
 - therapeutic, 35–36
 - refractory, 37–38

B

- Balloon occluded retrograde transvenous obliteration of gastric varices (BRTO), 72
- Barcelona Clinic Liver Cancer (BCLC), 76, 77
- Biliary cytology study, 62
- Biliary duct stenting, *see* Internal biliary stenting

- Biliary infection, 62
- Biliary tree, 3
- Bilomas, 45
- Budd Chiari syndrome, 71

C

- Chemical ablation, 79
- Chemoembolization
 - goal of, 84
 - intravenous conscious sedation, 85
 - liver cancers treatment, 92
 - patient selection, 85
 - post-procedure, 88
 - pre-procedure prophylactic antibiotics, 86
- Cholangiogram, 59
- Cholecystitis, 65
- Cholecystostomy, 3
- Chronic liver disease, 75
- Coaxial method, 52
- Colorectal cancer, 92
- Computed tomography (CT), 5–7
 - gastrointestinal bleeding, 5
 - percutaneous abdominal abscess drainage, 43
- Cryoablation, 79
- CT angiography (CTA), 5, 105

D

- Digital subtraction angiography (DSA), 107–109
- Diverticulosis, 104
- Dobhoff tube, 11, 13

E

- Endoscopic retrograde cholangiopancreatography (ERCP), 64
- Endovascular angiography, 109
- Enteral feeding, 21
- Enteric tube(s), 10
 - correct choice of, 10–12
 - post-procedural, 14
 - pre-procedural preparation, 12–13
- Esophagoduodenoscopy (EGD), 101

F

- Fluoroscopy, 51

G

- Gastroduodenal artery (GDA), 103
- Gastrointestinal bleeding (GIB), 5
 - classification, 101
 - CT angiography, 105
 - diagnostic and treatment approach, 101
 - digital subtraction angiography, 107–109
 - endoscopy, 104
 - lower, 103
 - ^{99m}Tc-labeled RBC nuclear scintigraphy, 105
 - transcatheter arterial embolization, 109
 - upper, 102
- Gastrojejunostomy, 18, 24–25
- Gastropexy, 26
- Gastrostomy, 21
 - See also* Percutaneous radiological gastrostomy (PRG)
- Gelfoam, 112

H

- Hepatic abscesses, drainage of, 45
- Hepatic arterial embolization, 84
- Hepatic trauma
 - multidisciplinary team approach, 92
 - outcomes, 97
 - patient selection, 94–95
 - techniques, 95–96
- Hepatobiliary iminodiacetic acid (HIDA), 7
- Hepatocellular carcinoma (HCC), 76
 - characteristic arterial enhancement, 76
 - progression, 76
 - staging and treatment, 77–78

- HIDA scan, *see* Hepatobiliary iminodiacetic acid (HIDA)
- Hyperthermic ablation, 79
- Hypertonic saline, 45

I

- Internal biliary stenting, 62
 - complications, 64
 - contraindications, 63
 - indications, 63
 - management, 63
 - techniques, 64
- International Ascites Club, 33
- Irreversible electroporation, 81

K

- Kangaroo tube, 11

L

- Large-volume paracentesis (LVP), 35
- Levin catheter, 10
- Liver abscesses, 46
- Liver Imaging Reporting and Data System (LIRADS), 76

M

- Magnetic resonance cholangiopancreatography (MRCP), 63
- Malignant ascites, 38–39
- Malignant biliary
 - obstruction, 61
- Microembolic agents, 88
- Microwave ablation, 81
- Minimally invasive image-guided drainage techniques, 41

N

- Nasogastric/nasoenteric (NG) tubes
 - placement, 9, 12, 14
- N*-butyl-2-cyanoacrylate (NBCA), 112

O

- Organ Procurement and Transplantation Network (OPTN), 76

P

- Pancreatic abscesses, management of, 45
- Pancreatitis, 53
- Paracentesis catheter drainage systems, 35
- Pelvic abscesses, 47
- Percutaneous abdominal abscess drainage, 41
 - complications, 49
 - contraindications, 42
 - imaging modality, 43
 - indications, 41
 - management, 42–43, 48
 - preparation, 42
 - techniques, 44–48
- Percutaneous abdominal biopsy, 50
 - anticoagulation management, 51
 - complications, 54
 - contraindications, 50
 - imaging modality, 51
 - indications, 50
 - management, 54
 - preparation, 50
 - techniques, 51–53
- Percutaneous cholecystostomy
 - contraindications, 58
 - indications, 57
 - outcomes and complications, 59
 - post-operative care and follow-up, 58
 - transhepatic approach, 57
- Percutaneous gallbladder drainage, 3
- Percutaneous radiological gastrostomy (PRG), 17, 24–26
 - complication, 27
 - contraindication, 23–24
 - follow-up, 26–27
 - indication, 21–23
 - techniques
 - gastropepy, 26
 - patient preparation, 25–26
 - tube selection, 24–25
 - terminology, 18–19
- Percutaneous transhepatic biliary drainage (PTBD), 59
 - contraindications, 61
 - indications, 60
 - outcomes and complications, 62
 - post-operative care and follow-up, 62
 - techniques, 61–62
- Percutaneous transhepatic cholangiography (PTC), 3
- Peripancreatic abscess, 47
- Peritoneal drainage catheter, 38

- Peritoneovenous shunts, 37
- Pheochromocytoma, 50
- Portal hypertension
 - definition, 67
 - in cirrhosis, 68
- Posttraumatic hepatic pseudoaneurysm, 96
- PRG, *see* Percutaneous radiological gastrostomy (PRG)
- Prophylactic antibiotics, 43
- PTC, *see* Percutaneous transhepatic cholangiography (PTC)
- Pyogenic abscesses, 45

R

- Radioembolization, 89
 - clinical outcomes, 91
 - patient selection, 90
 - postoperative evaluation, 91
 - techniques, 90
- Radio-frequency ablation (RFA), 80
- Radionuclide scanning, 7–8
- Refractory ascites, 37–38
- Routine prophylaxis, 43

S

- Salem Sump catheter, 11
- Seldinger technique, 44
- SIR-spheres, 89
- Solid tissue malignancy, 75
- Spontaneous bacterial peritonitis (SBP), 34

T

- ^{99m}Tc-labeled RBC nuclear scintigraphy, 105
- Technetium 99m, 8
- Trans Jugular Intrahepatic Portosystemic Shunt (TIPS)
 - checklist, 70
 - complications, 71
 - contraindications, 70
 - indications, 68
 - post care and follow-up, 70
- Transcatheter Arterial Embolization (TAE), 109–112
- Transgastric jejunostomy, *see* Gastrojejunostomy
- Transgluteal drainage, 47
- Transjugular intrahepatic portosystemic shunt (TIPS), 38

- Transjugular liver biopsy (TJLB), 73
 - Tumor ablation, 78
 - patient selection, 83–84
 - post-procedure treatment protocol, 84
- U**
- Ultrasonography (US), 3–5, 32
 - Ultrasound (US)
 - percutaneous abdominal abscess drainage, 43
- V**
- Visceral injury, 95
- X**
- Xylocaine, 12
- Y**
- Yueh needle, 44
