## A

- Actor-network theory (ANT), 169
- Affective agency, 84
- Affective contagion, 38
- Agency, 49, 50, 52, 53
  - definition, 80
  - without agents, 80–86
- Agential realism, 50, 77, 81, 85
- Agents
  - agency without, 80–86
- Altruism, 91, 247
- American pragmatism, 15, 185
- Amphibious landing, 66
- Animal emotions, 259, 260
- Animal empathy
  - altruistic nature, 240
  - definition, 247
  - domestic cats, 248
  - elephants, 247
  - monkeys, 241
  - morality, 240
  - music, 241
- Animal feelings, 242–246, 249
  - denial of feelings
    - materialists, 245
    - ontological shift, 243
    - positivism, 242
    - posthumanism, 244
    - religious totalitarianism, 243
    - self-fulfilling, 244
  - empathy, 247
  - grief
    - bull, 246
    - chimpanzees, 245
    - elephants, 245
    - magpie, 246
    - Scarlet-rumped Tanager, 246
  - insect (*see* Insect feelings)
  - romantic love, 248, 249
  - shared feeling, 242
- Animality, 95
- Animism
  - definition, 265
  - devaru, 267, 268
  - dividuation, 266
  - dualisms, 265, 266
  - epistemology and ontology, 269
  - human Selves, 267
  - Kungan, 268
  - rehabilitation, 269
  - relational ontology, 269
  - spiritual Selves, 270
- Anthropocentric modeling, 94
- Anthropocentrism, 8, 29, 50, 92–95, 165
- Anthropomorphism, 61, 278
- Anthropomorphization, 161
- Anti-clerical tendencies, materialists, 62
- Aristotle's substantive, 188
- Assemblages, 92
- Asymmetry
  - agility, 58
  - amplification, 60
  - anthropomorphism, 61
  - conceptual framework, 61
  - description, 58
  - dualist assumption, 57
  - feminist theorist, 57
  - Haraway's "freedom", 58
  - human-like qualities, 57
  - human/nature dualism, 61

- Asymmetry (*cont.*)  
 human-nature relationships, 58, 61  
 human primacy, 57  
 laboratory animals, 58  
 Levinasian “face”, 59  
 perverse conception, 58  
 portrait of animal agency, 59  
 qualities and capacities, 60  
 transformation, 60  
 value-neutral, 57  
 vestiges of dualisms, 60
- A Thousand Plateaus*, 36
- Attachment, 233
- Attachment theory, 96
- Authoritarian-minded humans, 63
- B**
- Barad, K., 35, 44, 50–56, 65, 69–73, 79–83, 86, 92–94
- Barad’s agential realist ontology, 51
- Barad’s theories, 53
- Becoming-animal, 36, 42
- Beings, 17, 153
- Biocommunication, 262
- Bio/ecocentrism, 151
- Biological evolution, 49
- Biosphere reserve, 26
- Biotechnological engineering, genetically modified organisms, 66
- Bird banding data, 280, 281
- C**
- Care ethics, 160
- Cartesian dualism, 35, 44–46, 48, 49, 51, 58, 62, 68, 82
- Casting, 98
- Chandler’s statement, 84
- Chickadee Woods, 163–165
- Close relationships, 10–14  
 assumption, 7  
 indigenous cultures, 7, 8  
 modern human  
 child care center and mother racoon, 12  
 children’s perceptual capacities, 14  
 gesture, 12  
 intimacy, 12  
 more-than-human, 10, 11  
 “mutual sense of belonging”, 13  
 nature, 14  
*post hoc* alteration, 14  
 more-than-human, 25
- Closeness, 92
- Cognitive bias, 250
- Cognitive significance, 94
- Common worlds pedagogy  
 anthropocentrism, 166  
 care ethics, 160  
 ceta-morphism, 161  
 childhood education, 159  
 dualism, 162, 163, 166  
 human-nature relationships, 159, 167  
 intimacy, 163  
 intra-action, 161  
 monist materialism, 160, 162  
 more-than-human beings, 160  
 more-than-human forest selves, 166  
 romanticism, 162
- Communal theory, 96
- Connection to Nature Scale (CNS), 128
- Connectivity to nature  
 anthropocentric view, 121  
 beauty, 108  
 definition, 121  
 external connection, 122, 123  
 helping behavior, 125  
 human self, 124  
 internalized connection, 123, 124  
 merging, 125  
 more-than-human beings, 126, 127  
 psychological notion, 121  
 reciprocal relationships, 110  
 relational structure and dynamics, 127–129  
 restorative and healing, 107
- Consciousness, 53
- Conservation psychology, 94  
 definition, 107  
 human-nature relationships, 107  
 more-than-human beings, 109
- Coole and Frost’s characterization, 65
- Critical animal studies (CAS)  
 dualisms, 168  
 equating animal with nonhuman, 173, 174  
 human-nature relationships, 168  
 sentience, 168–170  
 veganism, 170–172
- Critical plant studies, 168
- Cultures  
 history and social influences, 275  
 human-nature relationships, 274  
 “socially construct”, 274
- D**
- Darwin’s natural selection, 64
- De-anthropocentrizing ontologies, 56
- Deep dualism, 164

- Deleuze, G., 36–41, 43, 50, 59, 92, 95
- Deleuzian becoming
- actual relational partners, 41
  - affective contagion, 38
  - A Thousand Plateaus*, 36
  - communication, 42
  - contagion operates, 37
  - depersonalized, 43
  - description, 36
  - emitted particles or molecules, 40
  - explanatory mechanism, 37
  - fleshy materialist, 38
  - free-floating particles, 39, 40
  - Huntington's intuition, 42, 43
  - lack of *relationality*, 40
  - material reality, 41
  - materialism, 41
  - microimitations, 38
  - microrelationally, 43
  - molar entity, 36
  - molar vs. molecular, 36
  - molecular communication, 38
  - molecularity, 36
  - molecules, corpuscles/particles, 39
  - non-proximal becomings, 37
  - quasi-material, 43
  - schematics, 38
  - set theory, 36
  - spatially non-near set, 37
  - virtual spacetime, 39
  - zone of proximity, 36, 37, 39, 40
- Depression, 234
- Descriptively near sets, 36
- Deterritorialization, 40
- Digital technology, 66
- Driesch's *entelechy*, 73
- Dualisms, 241
- Dualistically sourced assumptions, 76
- Dyad, 52
- E**
- Ecocentrism
- anthropocentrism, 151
  - intrinsic and moral values, 152
  - management strategy, 151
  - systems-based approach, 152
- Ecofeminism, 15
- Ecofeminist dualisms, 47, 48
- Ecofeminist vs. posthumanist selves, 78–80
- Ecosystem management, 145
- "Ecosystem services", 137
- Egalitarianism, 152
- Electrical basis of emotion, 237
- affecting another person, 252
  - EEG, 251
  - electrical resistance, 252
  - electrochemical signals, 252
  - honeybee research, 253
  - internal and external emotions, 252
  - romantic love, 252
  - zoocentric orientation, 256
- Electromagnetic bio-communication, 256
- Eliminative materialism, 237
- Emergence theory
- biological conditions, 296
  - central nervous system, 297
  - conscious life and experience, 294
  - elements, 293
  - fallacy of discoverable materiality, 295
  - implausible, 295
  - intuition and primary experience, 293
  - intuitive-experiential means, 299
  - material microproperties, 297
  - material microstructures, 297, 300
  - material ontology, 298
  - material reality, 295
  - mental activity, 298
  - mental properties, 294
  - microproperties, 295, 296
  - ontological and epistemological fissures, 300
  - physical and mental, 293
  - physical components, 293
  - process of emergence, 296
  - scientific method, 299
  - supervenience and physical realization, 292, 293
- Empathy, 247
- animal (*see* Animal empathy)
  - definition, 247
- Environmental conservation, 26
- Environmental effects, 149, 150
- Environmental ontology, 3, 5
- Environmental problems
- deforestation, 4
  - faulty, 5
  - individual interaction, 3
  - large-scale, 3
  - leaf-picking approach, 4
  - relational Self, 4
  - social-scientific analyses, 5
- Epicurean materialism, 27
- Epitome of humanism, 163
- Etymology, 184
- Exceptionalism, 44
- Explanatory mechanism, 37

**F**

- Faulty, 5  
 Feelings/emotions, 234, 235, 237–239  
   attachment, 233  
   happiness-inducing experience, 236  
   inanimate, 272  
   internal
